Preface

As you will read in the documentation in this book, the attacks on Maui, Hawaii in part, was designed to take the native Hawaiin's sacred land, who have owned and occupied their ancestral properties for many many milleniums. There is also coordinated attacks on sacred native lands in Canada as well going on as our Controllors cannot legally take their lands so they are DEW'ing them out, it appears.

I personally have had a special fondness for Hawaii and Maui specifically visiting their several times with loved ones and feeling the great inner peace and love for these ancient Sumerian and Lumerian lands.

As you will learn these attacks have been planned for decades, if not longer. The Eagles song, "Last Resort" published in 1976 speak to taking down Paradise, Malibu and Lehaina in their song. Another of the many, many coincidence you will find proving premeditation

murder of people and lands using advanced sophisticated weaponry. Behind this all is a Spiritual war to take over Earth and "Rule in Hell" as Satan spoke to when he was cast out of heaven and would not bow down to Michael, who was chosen to live at the right hand of God. Hawaii is the Heart Chakra of Earth, so we are seeing this Spiritual, mental and physical war of attrition of our unseen enemies on a worldwide basis. This is not a country vs. country (corporation vs. corporation) but a war against all humanity, flora and fauna and lands.

The first step to any meaningful change is to understand the enemy we face. Hopefully, this book will bringing a greater clarity and understanding so we may design and take back our lands and protect all children for future generations. Tag you're it!

Introduction

WIIII began with the DEW attacks on the World Trade Center buildings. The construction of the first World Trade Center complex in New York City was conceived as an urban renewal project to help revitalize Lower Manhattan spearheaded by David Rockefeller. Construction of the World Trade Center's North Tower began in August 1968, and the South Tower in 1969.

As you can see, David Rockefeller was advertising that on 9.11, the towers would be attacked way back in 1967!. How did he know unless it was a decades long premeditation? As you will read the premeditation attacks on Paradise, Malibu and Maui were also pre-planned for their agendas to "Rule in Hell" and shape Earth into their desired plans and keep only those humans, and animals, that they wish to use for their own dominion.

Note the date April 3rd, 1967.

In my previous book, "Paradise Lost" covering the attacks on Paradise and many parts of California in 2017 and 2018, I show how the "fires" came out of nowhere, with no wind profiles and destroyed some homes and some cars, yet left the forest largely intact.

The Paradise "fires" were said, according to Cal Fire Chief Ken Pimlott, were said to have sparked by "a single telephone pole igniting when it fell to the ground" about 15 miles above Paradise, the swept down at "80 FOOTBALL FIELDS/MINUTE", which is over 220 mph, coming from the East, yet the winds were not great enough in Paradise for PG&E to cut the power!

As we saw in Paradise, I have many first person testimonies of Paradise residents saying they were kept from fleeing by the police department. The exact same testimony we are now hearing in the Maui, Hawaii attacks of 8/8/23. In addition, just like in Paradise, the water was turned off, the police blocked their few exits and told people to stay in their homes. This is the exact same profiles as the Maui attacks where thousands and thousands were murdered in their homes, and in their cars, as they tried to escape the fires that engulfed them so quickly, that many had to jump over the seawall and try and survive in the ocean. Reports of hundreds of bodies washing up on neighboring island, Lanai, owned by Larry Ellison of Oracle fame, are also not recorded by the coroner, Josh Green, who just happens to be the former chief of police in Las Vegas during the fake shootings in 2017 and is now Governor of Hawaii, promoting the "Green Agenda".

Governor Green has declared that "no one will be rebuilding soon" and "maybe we should not rebuild". In Paradise, most who got torched out that fateful Nov. 8th, 2018 morning, have yet to rebuild or return or to get compensation for their losses from the state yet. The insurance companies of the Maui homes are saying they are not responsible for homeowner compensation since this was and "Act of God" and they are not liable. In addition, the two largest home insurers in California, State Farm and Allstate, have also have declared they are not renewing California homes any longer which means no one in CA that takes out a mortgage can get coverage, or very limited liability coverage now, as the worlds greatest land grabs continue on the World Economic Forums agenda to get everyone to "own nothing and be happy" by 2030.

"Climate Change" is their raison d'être to take everyone out of their homes and put them in 15 minute cities and slave pod encampments being put in by FEMA all across USA inc. and the world. Problem, Reaction, Solution. They use Geoengineering methods to fry people out of homes, flood massive areas (Katrina, Harvey, etc.) and also use GE methods of plant synthetic biology to kill of food supplies as well.

The ships parked off the west coast in 2021, the Evergreen tanker stuck in the Panama canal, all the food plants catching fire, Bill Gates the largest owner of farmlands now in USA inc. and the "egg shortages" are all part of their telling us the hunger games are coming for all.

Education and awareness are always the first step for any significant change. ALL change now must be local and community. To survive these attacks on their stated goal with the Georgia Guidestones, set in granite (now blown up), their first stated #1 agenda is to "Keep humanity UNDER 500,000 people"! Local sharing, local food growing, local economies are what must happen again. We used to live with the land, that provided for us all, now we only can use our "chip" to by what will be approved by our blockchain landlords to feed ourselves and family, to get gas, or to use digital currencies, as cash will be eliminated.

"We are prisoners here of our own device" the Eagles song declared in their "Hotel California" album as well as "you can check in, but you can't check out"! They were referring to our own future of self-designed enslavement with our "SMART" phones most cannot even think of living without. Yet, we used to live free of Electronics and we can do it again, if we choose to act now and not wait until all their surveillance and controls of humanity are turned on and everyone is chipped and connected by "Nuerolink" to "Starlink" with our heads in the cloud, forever!

AGENDA 2030

Our Controllers. Who "They" Are

The main question I always get is "who are they"? Most have very little idea of the powers behind those you only know from your screen. As you can see in Appendix I in this book there are literally dozens and dozens of Secret Societies that you have never even heard of as well as the Presidents and men in power who are almost all members of these secret clubs like "Knights of Malta" and "Freemasons". They all answer to the "Men in Black" or the Jesuits aka The Black Nobility who control all, including geoengineering of weather and attacks by DEW on the people and flora and fauna inhabitants of One Mother Earth.

They plan over decades and centuries to execute their now stated agenda to take over all of humanity by their own declarations. The founder of the Jesuit order, St. Ignatius (Ignite) made this very clear in his 16th century proclamations. Presidents Clinton, Trump, etc. all went to Jesuit schools and training and follow the script they must follow or be taken out like what happened to USA Inc. President John F. Kennedy when he disobeyed Cardinal Spellman and tried to end "Spelly's War" in Vietnam

"My history of the Jesuits is not eloquently written, but it is supported by unquestionable authorities, [and] is very particular and very horrible. Their [the Jesuit Order's] restoration [in 1814 by Pope Pius VII] is indeed a step toward darkness, cruelty, despotism, [and] death. ... I do not like the appearance of the Jesuits. If ever there was a body of men who merited eternal damnation on earth and in hell, it is this Society of [Ignatius de] Loyola."

John Adams (1735-1826; 2nd President of the United States)

John Adams

Trump attended Jesuit Fordham University for two years and then transferred to the covertly Jesuit-controlled University of Pennsylvania.

Trump, in addition to being affiliated with both Jesuit Fordham and covertly Jesuit UPenn, has at least three children who are all alumni of UPenn and notorious Jesuit Georgetown University!

JESUITS

The Secret Covenant is their playbook they are using to take over the world and control all. The invisible blue bloods behind the scenes you will never know are deciding who they allow to remain and controlled by Artificial Intelligence. Their plans have been in the making for over a century, as to “better rule in hell than serve in heaven” as their edict when they were cast down by God as the fallen angels beginning in 1847-1876.

Secret Covenant – Part I

An illusion it will be, so large, so vast it will escape their perception. Those who will see it will be **thought of as insane**. We will create separate fronts to prevent them from seeing the connection between us. We will behave as if we are not connected to keep the illusion alive. Our goal will be accomplished one drop at a time so as to never bring suspicion upon ourselves. This will also prevent them from seeing the changes as they occur. We will always stand above the relative field of their experience for we know the secrets of the absolute. **We will work together always and will remain bound by blood and secrecy.** **Death will come to he who speaks.** We will keep their lifespan short and their minds weak while pretending to do the opposite. We will use our knowledge of science and technology in subtle ways so they will never see what is happening. **We will use soft metals, aging accelerators and sedatives in food and water, also in the air. They will be blanketed by poisons everywhere they turn. The soft metals will cause them to lose their minds. We will promise to find a cure from our many fronts, yet we will feed them more poison.** The poisons will be absorbed through their skin and mouths, they will destroy their minds and reproductive systems. From all this, their children will be born dead, and we will conceal this information. **The poisons will be hidden in everything that surrounds them, in what they drink, eat, breathe and wear.** We must be ingenious in dispensing the poisons for they can see far. **We will teach them that the poisons are good, with fun images and musical tones.** Those they look up to will help. We will enlist them to push our poisons. They will see our products being used in film and will grow accustomed to them and will never know their true effect. **When they give birth we will inject poisons into the blood of their children and convince them its for their help.** We will start early on, when their minds are young, we will target their children with what children love most, **sweet things.** **When their teeth decay we will fill them with metals that will kill their mind and steal their future.** When their ability to learn has been affected, we will create medicine that will make them sicker and cause other diseases for which we will create yet more medicine.

Secret Covenant – Part II

We will render them docile and weak before us by our power. They will grow depressed, slow and obese, and when they come to us for help, we will give them more poison. We will focus their attention toward money and material goods so they may never connect with their inner self. We will distract them with fornication, external pleasures and games so they may never be one with the oneness of it all. Their minds will belong to us and they will do as we say. If they refuse we shall find ways to implement mind-altering technology into their lives. We will use fear as our weapon. We will establish their governments and establish opposites within. We will own both sides. We will always hide our objective but carry out our plan. They will perform the labor for us and we shall prosper from their toil. Our families will never mix with theirs. Our blood must be pure always, for it is the way. We will make them kill each other when it suits us. We will keep them separated from the oneness by dogma and religion. We will control all aspects of their lives and tell them what to think and how. We will guide them kindly and gently letting them think they are guiding themselves. We will foment animosity between them through our factions. When a light shall shine among them, we shall extinguish it by ridicule, or death, whichever suits us best. We will make them rip each other's hearts apart and kill their own children. We will accomplish this by using hate as our ally, anger as our friend. The hate will blind them totally, and never shall they see that from their conflicts we emerge as their rulers. They will be busy killing each other. They will bathe in their own blood and kill their neighbors for as long as we see fit. We will benefit greatly from this, for they will not see us, for they cannot see us. We will continue to prosper from their wars and their deaths. We shall repeat this over and over until our ultimate goal is accomplished. We will continue to make them live in fear and anger through images and sounds. We will use all the tools we have to accomplish this. The tools will be provided by their labor. We will make them hate themselves and their neighbors. We will always hide the divine truth from them, that we are all one. This they must never know!

Secret Covenant – Part III

They must never know that color is an illusion, they must always think they are not equal. Drop by drop, drop by drop we will advance our goal. We will take over their land, resources and wealth to exercise total control over them. We will deceive them into accepting laws that will steal the little freedom they will have. We will establish a money system that will imprison them forever, keeping them and their children in debt. When they shall ban together, we shall accuse them of crimes and present a different story to the world for we shall own all the media. We will use our media to control the flow of information and their sentiment in our favor. When they shall rise up against us we will crush them like insects, for they are less than that. They will be helpless to do anything for they will have no weapons. We will recruit some of their own to carry out our plans, we will promise them eternal life, but eternal life they will never have for they are not of us. The recruits will be called "initiates" and will be indoctrinated to believe false rites of passage to higher realms. Members of these groups will think they are one with us never knowing the truth. They must never learn this truth for they will turn against us. For their work they will be rewarded with earthly things and great titles, but never will they become immortal and join us, never will they receive the light and travel the stars. They will never reach the higher realms, for the killing of their own kind will prevent passage to the realm of enlightenment. This they will never know. The truth will be hidden in their face, so close they will not be able to focus on it until its too late. Oh yes, so grand the illusion of freedom will be, that they will never know they are our slaves. When all is in place, the reality we will have created for them will own them. This reality will be their prison. They will live in self-delusion. When our goal is accomplished a new era of domination will begin. Their minds will be bound by their beliefs, the beliefs we have established from time immemorial. But if they ever find out they are our equal, we shall perish then. **THIS THEY MUST NEVER KNOW.** If they ever find out that together they can vanquish us, they will take action. They must never, ever find out what we have done, for if they do, we shall have no place to run, for it will be easy to see who we are once the veil has fallen. Our actions will have revealed who we are and they will hunt us down and no person shall give us shelter.

Weather Warfare

The USAF released a document in 1996 titled "Owning the Weather by 2025" and they have advanced their declaration where they control and modify weather at will around the Flat Earth world we live on today.

They micro grid weather using temperature variants and "chem fog" to advance their terror on humans and lands at will using weather modifying techniques they have had available for over 100 years, as I list in Appendix II in this book.

Climate Change Agenda ~ World Takeover by DEW

They use the pretext of "Climate Change" to advance their goals. Create the problem with weather manipulation, then the people demand help, then they advance their agenda to take and control all lands and eliminate 95% of the population as they emphatically stated when they erected the Georgia Guidestones in 1980.

We Are Prisoners Here of Our Own Devices

In addition, Facebook, Twitter and You Tube have all announced in the Fall of 2023 that they will be further cracking down on those speaking truth to power where we all will likely all be deplatformed and forced to “comply” or not be allowed access, much less post on even your gmail accounts. They even stated their intention to imprison all by their devices in the Eagles hit song “Hotel California” written in 1976.

And the Eagles song “Last Resort” describes taking down Paradise and Malibu. Both got hit by DEW on the same day, November 8, 2018. What are the odds this is only a coincidence or was/is it premeditated murder by design for decades?

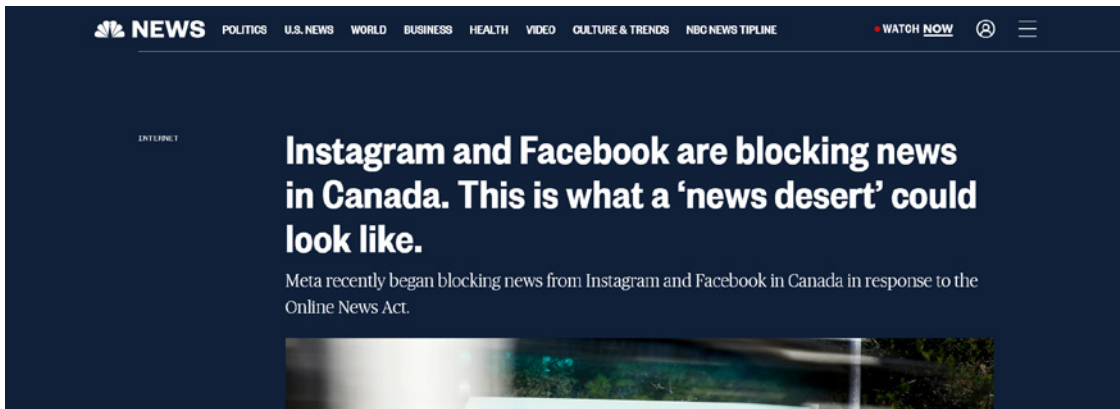

Welcome to the Hotel California
 Such a lovely place (such a lovely place)
 Such a lovely face
 Plenty of room at the Hotel California
 Any time of year (any time of year)
 You can find it here”

Mirrors on the ceiling
 The pink champagne on ice
 And she said, *“We are all just prisoners here
 Of our own device”*

And in the master’s chambers
 They gathered for the feast
 They stab it with their steely knives
 But they just can’t kill the beast
 Last thing I remember, I was
 Running for the door
 I had to find the passage back
 To the place I was before
 “Relax,” said the night man
*“We are programmed to receive
 You can check-out any time you like
 But you can never leave!”*

Freedom of Speech is OVER

End of Books, End of Knowledge

Additionally, I never ever thought I would see they day when book banning became common place in USA inc. and NO ONE even speaks to this huge fact. Remember when we all were appalled at Nazi Germany, Russia, etc. for sponsoring book burning's ???

Now we are about to see book banning by Amazon as they have initiated a "point system" on books so that books with "0-30" or so will be okay to purchase but others will not be available and I will no longer be able to sell my 15 books on Amazon.

They always use multiple pronged agendas and that there was a book on the Maui fires was intentionally put out by ChatGPT so that now "ALL BOOKS" will have to be judged, rated and decided upon by the blockchain, since publisher and authors are no longer "trustworthy" and must be 'fact-checked" before being allowed to be published or sold. SAVING BOOKS IS CRITICAL NOW.

Happy Banned Books Week. These are the most banned books from public libraries and schools in the U.S.

This book was released just 2 days after Maui attacks on 8.8.23

FAHRENHEIT 451 The temperature at which book-paper catches fire and burns

PART I by Ray Bradbury

IT was a special pleasure to see things eaten, to see things blackened and changed. With the brass nozzle in his fists, with this great python spitting its venomous kerosene upon the world, the blood pounded in his head, and his hands were the hands of some amazing conductor playing all the symphonies of blazing and burning to bring down the tatters and charcoal ruins of history. With his symbolic helmet numbered 451 on his stolid head, and his eyes all orange flame with the thought of what came next, he flicked the igniter and the house jumped up in a gorging fire that burned the evening sky red and yellow and black. He strode in a swarm of fireflies. He wanted above all, like the old joke, to shove a marshmallow on a stick in the furnace, while the flapping pigeon-winged books died on the porch and lawn of the house. While the books went up in sparkling whirls and blew away on a wind turned dark with burning. Montag grinned the fierce grin of all men singed and driven back by flame. He knew that when he returned to the firehouse, he might wink at himself, a minstrel man, burnt-corked, in the mirror. Later, going to sleep, he would feel the fiery smile still gripped by his face muscles, in the dark. It never went away, that. smile, it never ever went away, as long as he remembered.

Dew'd Incorporated A Mult-Billion Industry

Many understand laser surgery to heal your eyes or to reduce fatty tissue and many other healing modalities as I cover in Chapter 7, yet few are even aware how long, how vast and how large and industry the Directed Energy Markets are today.

Note the DEW market is growing exponentially and the USA Inc. created "Space Force" now being used against our own people. The U.S. Space Force's \$30 billion budget request for Fiscal Year 2024 is about \$3.9 billion over what was enacted for the service in FY2023. More than 60% of the Space Force budget, about \$19.2 billion worth, is aimed at research, development, testing and evaluation.

U.S. Space Force budget hits \$30 billion in 2024 proposal

DoD is requesting \$2.6 billion for national security space launch services

WASHINGTON — President Biden's \$842 billion budget request for the Defense Department for fiscal year 2024 includes \$30 billion for the U.S. Space Force, the largest funding request to date for the military space branch.

Upcoming Events

USA Inc. Space Force budgets have steadily risen since the service was established three years ago. Its first budget in fiscal year 2021 was \$15.3 billion, and it grew to \$18 billion in 2022. It jumped to \$26.3 billion in 2023 due to internal funds transfers from the Space Development Agency and the Air Force, plus a congressional add-on.

What most "United Statesians" of One America cannot get their head around is that our tax dollars are funding our own extermination. We stop the funding and the program goes away, yet most are indoctrinated by fear and unquestioning obligation to "pay their fair share".

To add one more significant milestone, Hammett includes his work with the Maui-based AMOS site, also called AFRL Detachment 15, until it was renamed recently.

“Putting and keeping Maui on a path of financial stability and technical excellence is a major source of satisfaction for me,” Hammett said. “I was proud to speak of the AMOS team’s achievements on May 26, when the AMOS site was activated as the 15th Space Surveillance Squadron, where it is now recognized officially as both a research and development site under AFRL and an operational site under the U.S. Space Force. I could not be more proud of our Airmen and Guardians at Maui.”

In looking at the future of the Air Force’s directed energy weapon systems, Hammett had these thoughts.

“I would like to see the Air Force determine the directed energy weapons we need, and establish a buy plan for the right mix of systems to meet the nation’s mission requirements, particularly with regard to the base defense

Hammett discussed what he considers his top three accomplishments over the past six years.

“We delivered the USAF’s first-ever operational directed energy weapons,” he said. “As part of the Air Force Directed Energy Experimentation campaign, AFRL characterized and deployed four directed energy counter unmanned aerial systems to overseas locations – three Raytheon High Energy Laser Weapon Systems and the AFRL Tactical High Power Operational Responder (THOR) system – we built THOR in-house in 18-months, a record breaking time. As part of these efforts, AFRL secured the Secretary of Defense approval for operational use of all systems.”

Hammett is also proud to say all total, his team “built and field-tested 10 new systems that didn’t exist before 2016.”

Being a leader of more than 1,200 military, federal civilians and on-site contractors with an annual budget of \$355 million is a test at any time, but it was a particular challenge during the COVID-19 pandemic. Hammett considers

“The Joint Vision 2010 operational concepts of dominant maneuver, precision engagement, full-dimensional protection, and focused logistics are enabled by information superiority and technological innovation. The end result of these enablers and concepts is Full Spectrum Dominance. Information superiority relies heavily upon space capabilities to collect, process, and disseminate an uninterrupted flow of information while denying an adversary’s ability to fully leverage the same”.

There are many, many DEW vehicles used to attack the innocent and unaware. Even CBS news reports they are using "Trillion Watt Lasers" to Geoengineer the weather at will anywhere in the world, at any time.

Physics of High Energy Lasers (HEL)

By: Bahman Zohuri - Galaxy Advanced Engineering Inc. 2016

Preface

Directed energy weapons are nothing new to mankind; historically the origination of such weapons began centuries ago when the famous Greek mathematician, physicist, engineer, inventor, and astronomer; Archimedes of Syracuse used different mirrors to collect sunbeams and focused them on the Roman fleet in order to destroy enemy ships with fire. This is known as the Archimedes Heat Ray. Archimedes may have used mirrors acting collectively as a parabolic reflector to burn ships attacking Syracuse. The device was used to focus sunlight onto approaching ships, causing them to catch fire. Of course the myth or reality of the Archimedes Heat Ray still is questionable, but with the help of a group of students from Massachusetts Institute of Technology certain experiments were carried out with 127 one-foot (30 cm) square mirror tiles in October of 2005 that were focused on a mockup wooden ship at a range of about 100 feet (30 m). The flames broke out on a patch of the ship, but only after the sky had been cloudless and the ship had remained stationary for around 10 min. It was concluded the device was a feasible weapon under these conditions.

The battles of tomorrow will be fought with different weapons that have more lethal effects and faster delivery systems. One of mankind's greatest achievements in the twentieth century is the ability to destroy the entire human race several times over. At this time of intensive arms more money is invested in the next generation of weapons. It is in the best interest of every citizen to be aware and able to make an informed judgment on the best possible direction for the arms race. Offensive or defensive weapons are a cruel reality that nevertheless must be addressed.

The scientific work during the 1950s that led to the invention of the laser was followed closely by work in military research institutes and organizations all over the world and this opened a new door to the Archimedes Heat Ray. Lasers have found many military applications, not as new weapons, but rather as the supporting technology to enhance the performance of other weapons such as laser-guided bombs and so on. Our fascination and appreciation of modern weaponry is at an all-time high. It was not until the 1970s that the possibility of laser weapons again

captured the imagination of military planners. High-energy and other directed energy weapons finally became a reality, and the possibility of using them in the battlefields of tomorrow has been investigated vigorously ever since.

The development of laser weaponry and other directed energy weapons technology conjures up the Heat Ray of Archimedes and Flash Gordon-like images of vaporizing enemies, demolishing buildings, and burning through metal. In this book introduces such weaponry to readers of different technical backgrounds as well as to introduce a certain technical approach to such research and to help better understanding of such weapons utilizing various technical and research resources.

The next 10 years will see the emergence of high-energy lasers as an operational capability in US service. These weapons will have the unique capability to attack targets at the speed of light and are likely to impair the effectiveness of many weapon types significantly, especially ballistic weapons. Constrained by propagation physics, these weapons will not provide all-weather capabilities, and will perform best in clear sky–dry air conditions.

The book in its laser technology section talks about the interaction between high-power laser beams and matters whereas other aspects of directed energy weapons, such as particle and high-power radar beams as a weapons of tomorrow can be found in the literature provided by other authors. Laser-beam interactions with materials, treat, from a physicist's point of view, the wide variety of processes that lasers can induce in materials. Physical phenomena ranging from optics to shock waves are discussed. The approach that is taken emphasizes the fundamental ideas both from a newcomer's or research worker's point of view to provide important background for material science, mathematics, optics, and the like, or a most critical up-to-date review of the field.

A directed energy weapon (DEW) such as a high-energy laser emits energy in an aimed direction without the means of a projectile. It transfers energy to a target for a desired effect. Some such weapons are real or in development; others are at present only in science fiction.

The energy can come in various forms:

- Electromagnetic radiation (typically lasers or masers)
- Particles with mass (particle beam weapons)
- Sound (sonic weaponry)
- Fire (flamethrowers)
- High-power laser weapons

Some lethal directed energy weapons are under active research and development, but most examples appear in science fiction, nonfunctional toys, film props, or animation.

In science fiction, these weapons are sometimes known as death rays or ray-guns and are usually portrayed as projecting energy at a person or object to kill or destroy. Many modern examples of science fiction have more specific names for directed energy weapons, due to research advances.

While this may be true, once unleashed, this awesome power can trigger other devastating consequences as well. Anti-eye laser weapons are currently being developed that can result in the mass blinding of soldiers, pilots, and tank crews.

Laser experts Anderberg and Wolbarsht [2] describe the staggering medical, social, and psychological ramifications that the use of laser weapons will entail and becomes as part of our study for laser range safety tool (LRST), which is the subject of this project. Furthermore, we explore the historical development of these weapons and briefly touch the fact that how far other countries, including France, England, and Russia, have progressed in their technology. We also try to serve the purpose of an introduction to the language of directed energy weapon (DEW) for military planners and nontechnical persons who need them to understand the fundamental of what the engineers and scientists involved in their development are talking about by basically touching some physics and mathematics involved in this field. Describe all the difficulties these folks are dealing with and how to overcome these obstacles in order to produce the right tool and technologies that will induce the proper DEW for our defense of our country. A better weapon in hands of our arm force to carry on such defensive task. Any employee found to have violated these policies and procedures may be subject to disciplinary action, up to and including termination of employment.

We have put a collection of software and computer codes that are developed by our engineers and scientist around the nation within national laboratories and defense companies under one umbrella and developed the Windows/PC version of these codes as a source of repository of such capabilities. Most of these codes were developed on main- and macro-frame computing system, and under this project, we managed to migrate them to micro-frame environment for simplicity of running these codes for the purpose of further enhancement and development of LRST and DEW in ABL area. In some cases, we further enhanced the technical capability of these legacy codes in order to serve the purpose of today's technology toward development of the directed energy weapons. Table 1.1 is a good representation of these codes.

Folks who are interested to obtain these codes for the purpose of their work toward the field of DEW should contact either principal of this report or original source that is mentioned in Tables 1.1 and 1.2 in this chapter. Although we tried to gather all existing unclassified computer code together, they are still considered critical military information that requires proper paper work to obtain these computer codes from our data bank, and in some cases it might require licensing query of third-party software.

To obtain most of these codes, you are required to have some direct and related US government contract from appropriate office or agency with the government.

Method for controlling hurricanes

Abstract

A method for controlling hurricanes by raising temperature in the eye and/or in the outflow. Air temperature within the eye and in the outflow of a hurricane is raised by flying scores of jet planes with afterburners in the structure. Small changes in temperature on a large scale bring in large changes in other variables on the smaller scale to change the direction and intensity of the hurricane.

Premeditated World War Dew'd

As the evidence presented proves beyond doubt, all or most of the DEW attacks were premeditated by our Controllers. From Paradise Lost being reclaimed, to taking out the ancient historic center of the Old World, Maui, we see the same pre-planned attacks on their stated agenda for us all "To Own Nothing and Be Happy" by 2030 as stated by the World Economic Forum in their calling of "Covid 19- Great Reset". They are literally publishing books as to their stated agenda daring anyone to try and stop them.

premeditation (n.)

"previous deliberation, prior consideration, forethought," early 15c., *premeditacioun*, from Old French *premeditacion* and directly from Latin *praemeditationem* (nominative *praemeditatio*) "consideration beforehand," noun of action from past-participle stem of *praemeditari* "to consider beforehand," from *prae* "before" (see **pre-**) + *meditari* "to consider," from a frequentative form of PIE root ***med-** "take appropriate measures."

This month, the Force awakens in theaters. Next month, a new force awakens in the New Mexico desert, where the Defense Department is to start testing a weapon worthy of "Star Wars" — a silent, invisible laser that needs just a couple of seconds to burn a hole in targets miles away.

"What it really boils down to is a silent weapon that nobody sees or hears," said Lt. Gen. Bradley Heithold, commander of Air Force Special Operations Command (AFSOC, pronounced "AFF-sock").

“Better to Rule in Hell than Serve in Heaven” ~Satan

Paradise Lost is about Satan’s “victory” over God when he tempted Eve with forbidden fruit which led out Adam and Eve being expelled from Paradise and their subsequent fall from the grace of God.

Paradise fires began on November 8th. It was 8 days after Satan’s expulsion from Paradise that he tempted Adam and Eve with the fruit of forbidden knowledge. The 8th is also one before the 9th of November 2018 or 11/9/2018. For those that study gematria, or the sacred language of numbers, it is 11/9, or 9/11 all over again. Concerted or just another strange coincidence?

The author of Paradise Lost, John Milton, died November 8, 1674. The Paradise fire attacks began the mo(u)rning of November 8, 2018 as well!

“*Paradise Lost* is an epic poem in blank verse by the 17th-century English poet John Milton (1608–1674). The first version, published in 1667, consists of ten books with over ten thousand lines of verse. A second edition followed in 1674, arranged into twelve books (in the manner of Virgil’s *Aeneid*) with minor revisions throughout. It is considered to be Milton’s masterpiece, and it helped solidify his reputation as one of the greatest English poets of all time. The poem concerns the biblical story of the fall of man: the temptation of Adam and Eve by the fallen angel Satan and their expulsion from the Garden of Eden.

Milton’s story has two narrative arcs, one about Satan (Lucifer) and the other, Adam and Eve. It begins after Satan and the other fallen angels have been defeated and banished to Hell, or, as it is also called in the poem, Tartarus (Tartarians!).

In Pandæmonium, the capital city of Hell, Satan employs his rhetorical skill to organise his followers; he is aided by Mammon and Beelzebub. Belial, Chemosh, and Moloch are also present. At the end of the debate, Satan volunteers to corrupt the newly created Earth and God’s new and most favoured creation, Mankind. He braves the dangers of the Abyss alone, in a manner reminiscent of Odysseus or Aeneas. After an arduous traversal of the Chaos outside Hell, he enters God’s new material World, and later the Garden of Eden”. ~ wikipedia

Satan was cast down in 1847 along with other fallen angels and began their takeover of Earth, and to modify Earth for their own desires and needs. The fallen angels incarnated into the “Blue Bloods” who have more copper in their veins and are the ruling elite. ALL USA inc. Presidents have “blue blood” Rh Negative blood that can maintain the genetic bloodlines of their despicable race.

In November 2018, a catastrophic wildfire ravaged the mountainous town of Paradise, killing 85 people and destroying entire neighborhoods. While firefighters, first responders and local officials worked to evacuate survivors and salvage the remains, a group of SJSU scientists gathered data using meteorological instruments on the back of a research truck one hundred feet from the flames of the deadliest wildfire in California's history.

It is advertised on their own website that San Jose State University "Google Scholar" of Climatology, Professor Craig Clements, was at the Paradise fires with his LIDAR truck was at the fires when the attacks began @ 8 am???. He was there when the attacks began on Nov. 8th with his LIDAR truck measuring the fires all the way from San Jose. WTF? Here is proof alone of premeditation. During a fire incident, they use LiDAR, a tool that detects material such as smoke or ash by beaming light into the atmosphere. By attaching LiDAR to bed of the research truck, Clements and his team have adapted a unique technique for observing the dynamics of the smoke plume while the LiDAR scans, collecting information on plume height, location of atmospheric materials and wind speed. As of early 2019, Clements had obtained additional grant funding to purchase LIDAR radar. The "Google Scholar" fire scientists from SJSU admit that they stood by as lives were torched in Paradise on Nov. 8th, 2018 too!

Fire Modeling

During that feverish weekend in Paradise, Clements was joined by undergraduate researcher Jackson Paladin Yip, '19 Meteorology, and graduate researcher Matthew Brewer, '20 MS Meteorology, who collected wildfire data and communicated with the incident command center, relaying weather information and moving when the situation demanded. As they witnessed survivors fleeing, saw neighborhoods burn, and watched firefighters and first responders make sense of the limited paths out of Paradise, Clements' team was monitoring the LiDAR amidst the climbing flames. The heartbreaking experience of watching the landscape burn reinforced the scientists' resolve to understand the science behind fire.

"We're doing groundbreaking research on a lot of phenomena that no one has any idea about," says Brewer, who is writing an analysis of the Paradise fire data for his master's thesis. "Data we collect from our LiDAR can be used to validate computer models, which

Additionally, other 'fire scientists' from SJSU were also at other fire attacks in California as the fires began even though the SJSU campus is hundreds of miles away!

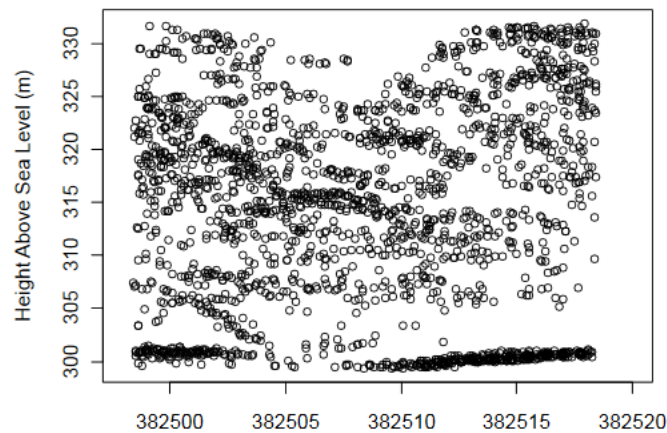

HOW DID THE Fire Scientists KNOW unless the DEW attacks were premeditated and planned ahead of time?

LIDAR can see through clouds, smoke and such to see inside the fires as well as direct targeting of lasers. They can also see through walls inside homes with LIDAR.

5.2.2 Airborne LiDAR data (Digital Elevation Model, vegetation structure)

LiDAR (Light Detection and Ranging) instruments collect data by emitting, and receiving the reflected pulses, of **laser** light to measure distance to targets. LiDAR systems that operate in commercial terrain mapping environments are typically operated from aircraft, and are capable of recording multiple discrete targets hits for each pulse, with modern systems able to emit 50,000–100,000 pulses per second. Each pulse has an associated GPS location and time associated with it. Data is collected for each flight overpass of the target area, and then flight passes are registered to GPS data and combined into a complete LiDAR dataset. LiDAR data provide a structural assessment of the terrain, as they are able to exploit gaps in vegetation cover to provide information on the ground surface beneath the vegetation, and information on the structure of the vegetation itself.

Figure 7 shows a transect of LiDAR data, and the distribution of the points in an example area.

“The added tools”, the website says, “will collect data that helps decode fire behavior, hopefully informing fire management and prevention. This is especially important, Clements says, because California residents should expect more fires in the seasons to come. For more than a century, fire management agencies have managed fire by suppressing it – extinguishing it, without allowing any excess fuel (brush, dead or drought-damaged vegetation) to burn”.

Brave souls like 20 year fire captains, John Lord and Matt Dankin, went to Paradise with me to see first hand. What they saw made on sense from a fire fighting perspective on any type of their training or 20 years of experience with forest fire profiles. DEW attacks were the only plausible scenario they could come up with on how the fires combusted and destroyed Paradise, only Paradise, so quickly.

Message to Q
The Camp Fire was a pre-planned event! I saw activity in the community of Paradise that gave me the sinking feeling that something was going to occur. I even told my daughter the week previous that something was going to happen. Capstone company needs to be completely investigated. I was told they were contracted by PG&E and working in the area for a couple of weeks previous to the event. I saw strange things during the fire being done by this company. Certain houses surrounded by fire trucks as up the street people burned alive in their cars. On top of that the town of Paradise turned the water off which prevented firemen from doing their jobs. the 3rd day Cal Fire called and demanded the water be turned back on. Many years ago we discovered that approx 75% of the hydrants in our town are blank. They are not connected to any water source at all. I lost everything I own to this Fire. Most of the town did. Many people lost their lives trying to escape. I have lived in this town since 84 and have seen some of the worst fire seasons on record. This was not a regular fire. The wind was NOT blowing like they claim except in the vicinity of the fire itself. There are roads with every house burnt to the ground but garbage cans standing perfectly untouched in the street between the burnt houses. In the weeks before many of the retirement and convalescent homes had evacuation drills and made sure that each person had a bag packed with 3 days worth of clothes and meds which stayed packed and ready after the drill. There is so much more to share, but there is no one here trustworthy to talk to.

Maui's Top Emergency Officials Were on a Different Island for FEMA Disaster Training as Flames Flared

August 24th, 2023

Via: **Daily Mail**:

Maui's top emergency officials were on another island when the wildfires begun, it emerged on Wednesday – and did not join a call about the response until five hours after the blazes broke out.

Dozens of senior bureaucrats were gathering on Waikiki Beach in Honolulu, on the island of Oahu, on August 8 for the annual meeting of FEMA coordinators in the Pacific region.

The first fire on Maui, the Upcounty Fire, broke out in the early hours of August 8.

Around 6:40am on that day, a school near Lahaina was evacuated, but an emergency response call was not held until nearly five hours later, at 11am.

The fire was declared 'contained' by 9am, CNN reported.

Yet by 3:30pm the fire had spread so significantly around Lahaina that an evacuation order was given for the town, and Lt. Gov. Sylvia Luke, Hawaii's acting governor, activated Hawaii's national guard.

A man takes photos of burnt out cars lining the sea wall after the wildfire on Friday, Aug. 11, 2023, in Lahaina, Hawaii.
Rick Bowmer / AP

“There was no warning. There was absolutely none. Nobody came around. We didn't see a fire truck or anybody,” said Lynn Robinson, who lost her home in the fire.

Hawaii emergency management **records show no indication that warning sirens sounded before people had to run for their lives. Instead, officials sent alerts to mobile phones, televisions and radio stations — but widespread power and cellular outages may have limited their reach.**

Hawaii has one of the most sophisticated tsunami warning systems in the world, fine-tuned over the course of almost 80 years, ever since 1946, when a 55-foot wave hit the island chain, killing 159 people.

For decades, tsunami evacuation maps have appeared in every Hawaiian telephone directory. Signs have alerted beachgoers of the hazard zones; others identified escape routes. The state now has an emergency alert system for all disasters that not only relies on sirens, which get tested on the first working day of every month everywhere in Hawaii, but also on radio and TV broadcasts. It is a system designed to save lives when disaster is about to strike.

Sadly, a lot of people were never even alerted to the fact that they were in danger, because officials purposely decided [not to activate the warning sirens...](#)

The man in charge of Maui's Emergency Management Agency said Wednesday he does not regret not activating warning sirens as the fatal wildfire swept across the island.

Chief Herman Andaya said he opted to send out alerts via mobile devices, radio waves, television and the county's opt-in resident alert system – but not via siren.

Andaya says that he made this decision because he was concerned that people might have gone the wrong direction.

Seriously?

If I hear a siren and I see a fire coming at me, I am not going to run toward the fire.

Do these people have any common sense at all?

In deadly Maui fires, many had no warning and no way out. Those who dodged a barricade survived

August 24, 2023, *Associated Press*

As flames tore through a West Maui neighborhood, car after car of fleeing residents headed for the only paved road out of town in a desperate race for safety. And car after car was turned back toward the rapidly spreading wildfire by a barricade blocking access to Highway 30. One family swerved around the barricade and was safe in a nearby town 48 minutes later, another drove their four-wheel-drive car down a dirt road to escape. One man took a dirt road uphill, climbing above the fire and watching as [Lahaina burned](#). He later picked his way through the flames, smoke and rubble to pull survivors to safety. But dozens of others found themselves [caught in a hellscape](#), their cars jammed together on a narrow road, surrounded by flames on three sides and the rocky ocean waves on the fourth. Some died in their cars, while others tried to run for safety. **The road closures — some because of the fire, some because of downed power lines — contributed to making historic Lahaina the site of the deadliest U.S. wildfire in more than a century. Many of the survivors are angry, and haunted by the thought that a just few minutes of notice could have saved many lives.** [Nate] Baird's neighborhood near Lahainaluna Road was filled with kids who were home alone when the flames hit, he said. "We needed like 10 more minutes, and we could have saved a lot of kids," he said, choking back tears. "If we'd just had like a 10- or 15-minute warning."

With wildfires ripping across West Maui on Aug. 8, a state water official delayed the release of water that landowners requested to help protect their property from damage and stop the spread. The water standoff played out over much of the day and the water didn't come until too late. The dispute involved the Department of Land and Natural Resources' water resource management division and West Maui Land Co., which manages agricultural and residential subdivisions in West Maui.

According to accounts of four people with knowledge of the situation, M. Kaleo Manuel, a Native Hawaiian cultural practitioner and DLNR's deputy director for water resource management, initially refused West Maui Land Co.'s requests for additional water to help prevent fires from spreading to properties managed by the company. Manuel eventually released water but not until after the fire had run its course.

“Last Resort” Predicting the Dew Attacks in Song Since 1976

Attacks on Paradise, Malibu and Lehaina Predicted on Eagles Album (1976) “Last Resort”.

"**The Last Resort**" is a song written by [Don Henley](#) and [Glenn Frey](#), which imagines industry and commerce inevitably destroying beautiful places. It was originally released on the Eagles' album *Hotel California* on December 8, 1976.^[1] It was subsequently released as the B-side of "Life in the Fast Lane" single on May 3, 1977.

*She came from Providence
 One in Rhode Island
 Where the old world shadows hang
 Heavy in the air
 She packed her hopes and dreams
 Like a refugee
 Just as her father came across the sea
 She heard about a place
 People were smilin'
 They spoke about the red man's way
 And how they loved the land
 And they came from everywhere
 To the Great Divide
 Seeking a place to stand
 Or a place to hide
 Down in the crowded bars
 Out for a good time
 Can't wait to tell you all
 What it's like up there
And they called it paradise
 I don't know why
 Somebody laid the mountains low
 While the town got high
 Then the chilly winds blew down*

*Across the desert
Through the canyons of the coast
To the Malibu
Where the pretty people play
Hungry for power
To light their neon way
Give them things to do
Some rich men came and raped the land
Nobody caught 'em
Put up a bunch of ugly boxes
And Jesus people bought 'em
And they called it paradise
The place to be
They watched the hazy sun
Sinking in the sea
You can leave it all behind
Sail to Lahaina
Just like the missionaries did
So many years ago
They even brought a neon sign
"Jesus is coming"
Brought the white man's burden down
Brought the white man's reign
Who will provide the grand design?
What is yours and what is mine?
'Cause there is no more new frontier
We have got to make it here
We satisfy our endless needs
And justify our bloody deeds
In the name of destiny
And in the name of God
And you can see them there
On Sunday morning
Stand up and sing about
What it's like up there
They call it paradise
I don't know why
You call someplace paradise
Kiss it goodbye*

Native Lehaiians will not be allowed to rebuild..."Kiss it Goodbye", planned since 1976 indeed!

But while she didn't lose her Lahaina apartment to the blaze, she's about to be displaced for another reason.

Boam and dozens of other tenants around Maui have received 45-day notices to vacate — many coming from landlords who say they need their properties back to house family members whose homes were destroyed in the fires.

I clipped an interview with a known local in Lahaina, who spoke about the police blockading people from leaving front street. Shortly after that the booms started, and that's why you see the line of Cars on front street toasted, and people being forced to bolt for the water. If you want them, let me know how I can share them with you. I clipped them from a Livestream in Maui.

I Didn't Think It Could Get Worse, They Corralled Cars To Front Street

When I went to Paradise after the attacks many of the road workers and traffic controllers were foreign speaking. Also, locals said the police would not let them leave and blocked the exits. Another coincidence?

My town took the east eye wall of hurricane katrina. Ive had my own nightmare and know how evil the redcross is first hand. 18wheelers of clothes and supplies not given to us. Walmart gift cards refused to be given to us. I could write a essay about my experiences. The shelters turn into a prison within a week or two. Im glad we left before we werent allowed to. Dont ever donate clothes or blood to redcross (redshield or rothchild) it doesnt end up where you intend it to go. It took years to rebuild and then they gave us tiny campers full of toxic chemicals that made us sick, I slept outside most of the time. And yes the SBA comes in and offers you low interest rate loans to rebuild after the insurance companies deny your claims youve paid forever. Correction we got 2000 for a depreciated roof. The rest of the house wasnt covered. They had to have armed guards and police at the insurance tents as people who lost everything and paid there entire lives were denied with nothing left to lose were taking them out.

New orleans flooded after the hurricane and received most of the media attention. It was the MS gulfcoast and parts of Louisiana like slidell that were obliterated.

Boats on Fire in the Ocean, WTF?

The "new abnormal" for fires is that the flying embers can launch miles and torch boats on water, even setting the Pacific Ocean of fire! If you beLIEve that, I've got some Maui real estate to sell along with a bridge. Locals were forced into the burning ocean, truly hell on water.

The Embers, the Embers, The Embers flew over and into the ocean, sources say:

Lee Frelich, a fire expert and director of the University of Minnesota Center for Forest Ecology, told *Newsweek* via email that it is possible for fires to spread to boats.

"With the high winds blowing offshore lots of glowing red-hot embers could rain down on boats, and if they land on a flammable object on a boat, could start it on fire," Frelich said. "Also, for those boats very close to the shore, intense radiant heat from the flaming front could also start fires."

"Obviously, the further away from shore, the lower the chance that this would happen due to rapidly falling probabilities of a given boat being hit by the right type of embers with greater distance."

The Directed Energy Weapons (DEWs) being used on Hawaii are powerful enough to set the Pacific Ocean on fire.

Crisis Actors to Usher in the Green Agenda

Great Hawaiian Land Grab: Sinister Govt Agenda To Ban People Selling Or Developing Maui Properties
By: Tim Truth, August 19, 2023

Land Grab?

I'm already thinking about ways for the state to acquire that land so that we can put it into Workforce Housing and to put it back into the families or to make it open spaces in perpetuity as a memorial. – Gov. Josh Green interview with Michael Hennessey, Snowflake news, Green Wants State to Own Lahaina, August 15, 2023, [13:00 minute mark].

The new governor of Hawaii, Josh Green M.D., a licensed medical doctor, resident of Hawaii, but not a Hawaiian, became governor in December of 2022 and took office in January of 2023. In similar fashion, Maui also elected a new mayor, Richard Bissen, at the same time. But where was the mayor during the disaster? And why is he now **facing calls to resign**?

I'm not sure who was in charge. – Maui Mayor Richard Bissen

Taking the Sacred Lands of the First Native People

Note the “Green New Deal Network”. They always provide the other side point-of-view to always, always, always control both sides of the narrative.

Kaniela Ing, national director for the Green New Deal Network and an Indigenous leader in Hawaii, said the wildfires offer further proof of a dangerous climate emergency.

“We need legislation that is as bold and urgent as the scale of the wildfires choking Hawaii and Canada, the heatwaves suffocating Texas, and the extreme flooding drowning Europe,” said Ing, a former state legislator in Hawaii. “How many more lives lost or families displaced in communities like mine is President Biden willing to tolerate before he declares a climate emergency and activates politicians to take further climate action?”

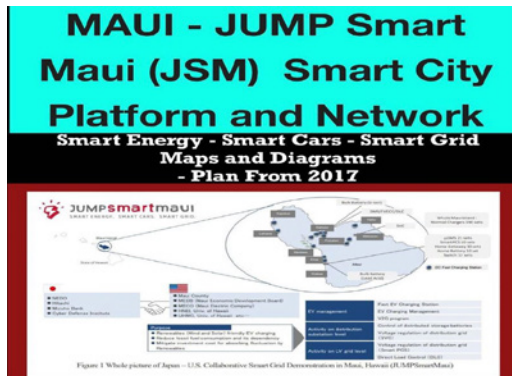

For jobs. For justice.

At a time of global pandemic, with millions out of work, deepening racial inequity, and a worsening climate crisis, the need for clear action — a Green New Deal for all people, Black, Indigenous, Brown, and white — has never been more urgent.

Our movement is building grassroots and political power to form a new consensus that supports the massive government investments that are needed to make this vision a reality, while proactively addressing and making up for discriminatory policies that hurt people of color, working-class communities, and other marginalized groups.

The Green New Deal Network is a coalition of grassroots organizations, labor, and climate and environmental justice organizations growing a movement to pass local, state, and national policies that create millions of family-sustaining union jobs, ensure racial and gender equity, and take action on climate at the scale and scope the crisis demands.

Hawaii The First Planned "Smart City"

There is also an inconvenient article published in 2018 by the World Economic Forum that states that the global ruling class planned to make Hawaii the first U.S. state to run entirely on clean energy. There is also an article from the World Economic Forum that talks about their alliance and creating a Smart City on Maui.

The governor of Hawaii, Josh Green, is in on it. Last year, there was a proposal to build a high rise residential building in Lahaina, but since it's a historic town, new development was not allowed. But now that everything has been burnt down, now they can "build back better." Just weeks before the fire, the governor signed a new proclamation on housing that allows the government much more leeway to build as they see fit in Lahaina.... including building "15 minute Smart Cities" run by artificial intelligence. And the government of Hawaii states their goal is to rebuild and make the entire island of Maui the first Smart Island, run by AI. This is outlined in the Hawaii Digital Government Summit of 2023.

Green was also the keynote speaker at the UN earlier this year, addressing the Economic and Social Council. Speakers were invited to help implement the UN's agenda for Sustainable Development Goals for 2030. Green was the only US state leader to do so. Green has also said, "I'm

already thinking of ways for the state to acquire that land so that we can put it into workforce housing." In other words, cages for the slaves of the state, controlled by AI in the first 15 minute smart city.

In case you don't know, "15 minute cities" are the Jesuits plan to keep everyone within fifteen minutes walking distance, subsisting in 500-square-foot high-rise apartments, only leaving for work and essential shopping, within a fifteen-minute walk. These cities will all be run by artificial intelligence, monitoring and tracking our every move and handing out "social credit scores."

Need more coincidences? The police chief of Maui was the same guy in charge of the shady events surrounding the mass shooting in Las Vegas in 2017, and has earned awards from the now-weaponized FBI. He is also the coroner of Maui. As residents attempted to flee the area by car, they were barricaded in by police. One man, who escaped on foot, begged the police officers to let people out, but officers responded, "I'm just following orders." As the man continued on, he began to hear loud explosions and then people screaming, as they perished in the inferno. Despite no warning sirens, no help from firefighters and the water being turned off, they could have escaped certain death, but police were ordered to barricade them in. *The fewer witnesses the better.*

Now as the community tries to pick up the pieces, we know that well over a thousand died in the flames, their bodies incinerated into powdery dust, just like their homes which collapsed into dust in their own footprints and foundations. And now, home-owners are being told — for the very first time — that they were in violation of some sort of obscure local code or ordinance, so insurance companies are not going to pay. These are multi-generational home-owners, who paid their insurance premiums faithfully for years. But no compensation for them.

Then immediately, big corporate investors — like Blackrock, Vanguard and State Street — began swooping in, offering to buy the property for pennies on the dollar. The Biden regime has offered each household a one-time payment of \$700, even as they've already sent \$133 billion to be laundered in Ukraine. And for the 44th time, the Pentagon just announced another \$200 million for Ukraine. If you're not outraged, you're sick in the head.

And just like in all other disasters we've seen, the government is not helping with any sort of "emergency management." FEMA is, in fact, hindering efforts to help those who've lost everything. Locals have banded together to help one another. Donations have come from all parts, but FEMA will not allow them to be distributed — not even life-saving medicines like insulin — because they're not federally approved. So, FEMA is hoarding the supplies. Maui residents have even tried to get supplies through by boat, but have had to push through government barricades to do so. Then, they're not allowed to use public boat landings. Some have managed to get supplies in by boat using one privately-owned boat dock north of town.

Up the road, FEMA has taken over the Veterans Memorial building and people are being told to go there for supplies. But when they arrive, they're told it's not a distribution center, it's a "shelter," and unless you're checking in and staying at the shelter, they'll receive nothing. *In other words, it's a concentration camp.*

“What they don’t talk about is in January how they had in Maui a smart city conference to turn Maui into an entire smart island, changing everything to electric, renewables, solar panels and pushing everybody into electric vehicles – 15-minute smart cities. So, now what’s also interesting is next month in September, Hawaii is hosting the digital government summit, utilizing AI to govern the island, It’s almost like they’re resetting something to start rebuilding for this.”

“Build Back Better” or “Burn Back Better” ?

Meanwhile, FEMA has sent a memo to Non-Governmental Organizations that attempt to offer aid and relief that they’re now forbidden to post any photos, videos or images of Lahaina, and any images already on their websites must be immediately removed. They must hide the evidence.

According to an article in the California Globe, Josh Green has been a puppet for the United Nations and a spokesperson for the Build Back Better (bbb) 2030 agenda, which seeks to create “Stack-N-Pack” housing in Smart™ Cities all over the world by 2030. According to the July 13, 2020 World Economic Forum Playbook, the “bbb” agenda includes: “destruction,” “green recover,” “reset and reinvent,” disasters,” based on “Climate Change.”

In Hawaii, the **BBB** created the **Build Beyond Barriers Working Group** empowered to approve and streamline housing construction projects, scheduled for a 5-year build-out based on the U.N. Sustainable Cities and human Settlements. **In other words, no more single family homes.**

The 2030 Agenda Sustainable Development Goal 11, “make cities and human settlements inclusive, safe, resilient and sustainable. – Build Beyond Barriers Working Group (BBBWG), August 11, 2023, Office of the Governor

The UN document details “Sustainable Human Settlements” under 6) *promoting human settlements planning and management in disaster-prone areas.*”

Green is not the only politician promoting the U.N.’s **Build Back Better** Agenda, the largest effort to “combat climate change.” On October, 28, 2021, President Biden announced the Build Back Better Framework for the U.S. The buildup to the Maui fires began when Gov. Green issued an emergency housing proclamation three weeks prior. Along with Hawaii’s robust emergency siren warning system, everything should have been ready to flush out any wayward spark. So why did the warning sirens sit silent during the deadly fires?

One month before the Maui fires ...(July 12, 2023), Governor Green issued a press release highlighting a commitment to the United Nations (U.N.) 17 Sustainable Development Goals (SDGs) under the narrative of uniformity.

We cannot put off changing things any longer. We refuse to stand idle when 2030 looms closer and closer... We only have one Island Earth, let us do our best to take care of it and each other. We are one species, with one planet, one chance. – Gov. Josh Green, July 12, 2023.

Three weeks before the Maui fires... (July 18 2023), Governor Green issued a controversial Emergency Housing Proclamation titled, "Emergency Proclamation relating to Housing" related to natural disasters or Covid. The proclamation not only suspends the laws of Hawaii to give the Governor broad powers over any emergency, but also removes barriers to building new homes.

The laws suspended include provisions related to historic preservation, county zoning and the state Land Use Commission, which functions as a state-level zoning authority. The order also suspends Hawaii's environmental review law, which requires in-depth environmental impact statements for projects determined to have a significant impact on natural and cultural resources.

The fast-tracked environmental review process will largely be conducted by the working group and housing officer. While Green promised the group and officer will work transparently, the working group will not be subject to Hawaii's Sunshine Law, which among things requires decision-making agencies to hold their meetings in public.

One week before the fires... Governor Green spoke at the UN Sustainability Forum:

We have done some things. One is The Aloha Plus Challenge, which is a data-driven approach... to track the SDGs to make sure that we embed them in all of our policies. – Governor Josh Green speaks at Sustainability Forum, United Nations, Source: Green Wants State to Own Lahaina, August 15, 2023.

Questions that we should all be asking about the fires in Hawaii right now...

#1 How did the fires start? Governor Green is convinced that they were caused by a confluence of factors. Do you buy his explanation?...

Echoing wildfire experts, Gov. Green said Friday that he believes a confluence of weather conditions contributed to the ignition and spread of the blazes.

"It is a product, in my estimation, of certainly global warming combined with drought, combined with a super storm, where we had a hurricane offshore several hundred miles, still generating large winds," Green told CNN.

#2 How did the fires spread so rapidly? According to multiple news reports, people were literally jumping into the ocean to escape because the fires were moving so rapidly...

With fires raging on Maui, two men felt there was nowhere to escape the flames – except for the ocean.

The two men live in Lahaina, a historic part of Maui loved by tourists, which appears to be heavily damaged by this week's raging fire. They described a terrifying scene as they evacuated from Prison Street, right in the heart of Lahaina.

"I saw a couple people just running, I heard screams out of hell ... explosions. It felt like we were in hell, it really was. It was just indescribable," one of the men told Nexstar's KHON.

#3 How did a fire that was supposedly “out” end up causing the most damage of all? According to Governor Green, the Lahaina fire was supposedly given new energy “by far-off Hurricane Dora”...

After first erupting early Tuesday, the fire was initially deemed to be out, but winds whipped up by far-off Hurricane Dora that reached up to 81 mph fanned the flames and spurred the blaze to travel about 1 mile every minute, Green said.

#4 According to U.S. Representative Jill Tokuda, the alarm system that is supposed to warn residents that a disaster is happening appears to have failed. How is that possible?...

We know everybody who’s ever lived in Hawaii knows the warning sirens. It goes off once a month at the beginning of the month at 12 noon, and it blares and if it doesn’t, it gets fixed, because that is our first line of defense. Unfortunately, in this situation, sadly, tragically in this situation, those sirens likely did not go off. The warning signals that were on cell phones, we had no cell coverage or electricity in some of these areas. And the reality is with those warning signs, it tells all of us to turn on the television or look at our phones or turn on the radio. The reality is was how fast this burn was. And you could see it in the videos that survivors were showing me. You could see it in the wreckage. If you turned on your phone, you turned on a radio, if you even could. Remember things were out at that particular point, you would not know what the crisis was.

#5 Why are emergency supplies not getting to the people that desperately need them? It is being reported that a “telecommunications blackout” has been one of the factors that has been hampering relief efforts...

But an enduring telecommunications blackout hampered government and grassroots efforts to distribute those supplies in the worst-affected neighborhoods, especially for an unknown number of survivors waiting out the aftermath in the few buildings still standing in the historic town of Lahaina and neighborhoods on the outskirts.

With their vehicles burned to a crisp, some sheltering at home have no way to drive to distribution centers miles away, or their cars have run out of gas. Others simply don’t know where to go for help. Toxic fumes and downed power lines with live wires make venturing outdoors dangerous.

#6 Why are people that have just had their homes burned down in the fires already being bombarded with calls with offers to purchase their properties? The vultures are circling, and it appears that there are some people out there that are extremely interested in scooping up land inexpensively.

#7 Why has the FBI moved a “mobile refrigerated morgue” into Lahaina?...

A mobile refrigerated morgue has been brought to the devastated town of Lahaina as Maui officials continue their search for victims of the worst U.S. wildfire in 100 years.

The death toll on Sunday rose to 96, but Hawaii officials said it was likely to rise significantly. John Pelletier, the Maui police chief, *said only three percent of Lahaina – home to more than 9,000 people – had been searched so far.*

“Dora House” Only Survivor of Hurricane Dora ...What are the odds?

Gee, the only house standing with a red roof from Hurricane Dora was “Dora Millikins” house, what are the odds???

Nearly 100-year-old house withstood a historic fire

It's not easy to explain how or why the house survived a fire that obliterated hundreds of structures around it. Millikin points to two big factors: luck, and the metal roof he and his wife, **Dora** Atwater Millikin, installed during recent renovations.

“We removed five layers of asphalt that were on the roof,” Millikin said. When the new metal roof was installed, he added, it included an air pocket to allow heat to dissipate. At the ground level, they removed all vegetation along the house's dripline and added a stone buffer — a step taken to thwart not fires, but termites”.

'Miracle house' owner hopes it will serve as a base for rebuilding Lahaina

Why Maui? R.I.P. Michael Murphy

Another reason for the DEW attacks on Maui was due to the fine work of Michael Murphy who produced 3 movies on Geoengineering including one on Maui, featuring actress Margeaux Hemingway. Sadly, he was driven to his death by alcohol by other Geoenineer “watchers” who attacked him mercilessly, even though they/we are on the same team. I was also attacked by this Geoenineering “watcher”.

The Maui Chemtrails Fight

For more than a decade, the hardy people of Maui fought to bring clear blue skies back to the tropical paradise by banning the [geoengineering](#) of their skies.

In 2011, a host of initiatives, from “[Maui Clean Sky Ordinance](#)” to “[Maui Sky Watch](#),” tried in vain to stop the [spraying](#) of the metals nanodust over the Hawaiian archipelago. But the military-contracted planes continued to rain the metal shavings down on the island that hosts a pair of extinct volcanoes.

The three main elements used in chemtrail cocktails include barium (BA), aluminum (AL), and [Strontium-90](#) (90Sr), a radioactive isotope. For those awakening now to the spraying overhead, note that barium and aluminum combined make “Ba’al,” one of the demonic gods that humans with lower frequency worship.

In 2015, Maui resident [Michael Murphy](#) got together with the mayor to stop the aerosol spraying with the bill “[Blue Sky Ordinance](#)” that sought to ban geoengineering the skies.

FEMA Takes Over

Three days after the fires in Santa Rosa, Darius Anderson, founder of the Sonoma Media group and owner of the local Press Democrat newspaper, created the “Rebuild North Bay” project. Within just a few days, he then “tapped” James Lee Witt, a former FEMA Director during the Clinton Administration to come

in to run the Rebuild North Bay project. **Note the 600+66 = 666**

James Lee Witt owns several disaster, for-profit, capital firms in his private life. One of his companies Witt offers a full range of crisis and emergency management solutions to help private and public organizations prepare, respond, and recover before and after catastrophic events. This includes profiting from manmade and natural disasters including Hurricanes Maria, Irma, Harvey,

Katrina, Rita, Ike, and the Deepwater Horizon explosion in the Gulf of Mexico.

In December, Witt Associates merged with O’Brien’s Response Management, a Louisiana-based crisis and emergency management firm, that was a unit of Seacor Holdings (CKH stock symbol), to form Witt O’Brien’s. The combined corporation is headquartered in the District, but its largest office is in Houston. It also has offices in New Jersey, Washington state, Alaska, Arkansas, California, Florida, Brazil and the United Kingdom – chosen specifically because they’re either prone to typhoons, hurricanes and earthquakes, or for their proximity to the oil and gas industries.

Seacor Holdings Witt O’Brien disaster capitalist division made \$15 million in the 4th quarter of 2017, from cleaning up, literally, from Hurricane Harvey that hit Houston, Texas on mid-August of that year.

James Lee Witt more recently founded a corporation called EB5 Global Management, LLC, which seeks to capitalize on a controversial U.S. law that grants fast-track permanent residence status to foreign nationals in exchange for large investments in American development projects. The company has offices in Washington, D.C., and Little Rock, Ark., and was registered in Delaware in August 2015.

According to its website, EB5 Global Management sets out to “form, fund and manage special purpose limited partnerships to loan money to companies creating jobs in the United States. We align the capital requirements of domestic developers and entrepreneurs with the immigration goals of our EB5 investors.” Witt’s firm accomplishes this goal by “coordinating the investment of foreign capital into development projects that are located within the United States in conformity

with the requirements of the **EB-5 Visa Green Card Program.** EB-5 visas are granted to foreigners who make investments of at least \$500,000 in areas with high unemployment or at least \$1 million everywhere else, in exchange for a guarantee of 10 full-time jobs for every million dollars invested. Since its inception, the EB-5 program has been used to finance hotels, retail space, housing projects and numerous Las Vegas casinos. Regionally, the \$6 billion Treasure

Island development project now underway in San Francisco was undertaken with EB-5 loans provided to the Lennar Corporation, the nation's second-largest homebuilder.

Rebuild North Bay is a 501(4)(c) non-profit initiative launched by Darius Anderson, a prominent Sacramento lobbyist and real estate investor based in Sonoma who is also the managing partner of Sonoma Media Investments, the newspaper group which owns the Press Democrat. Anderson's lobbying clients on record with the state of California include Station Casinos, a Las

Vegas corporation that manages the Graton Rancheria Casino in Rohnert Park. He also lobbies for Tesla General Motors and CannaCraft and Robertson's Ready Mix, one of the nation's largest concrete firms, which is owned by the Mitsubishi Materials Corporation.

Anderson's Kenwood Investments is a key development partner behind the 'eco-friendly' Treasure Island project now underway. According to an August 2017 EB-5 project database compiled by the Center for Real Estate Finance Research at New York University, the Treasure Island development is funded, in part via \$155 million in foreign loans provided to the Lennar Corporation to build a new community of 8,000 homes and hundreds of thousands of feet of new retail space.

Darius Anderson is also an active PG & E lobbyist, while James Lee Witt continues to expand his disaster capitalist enterprises with the many more of the fires in California over the past two years, including the proclaimed, "Greatest Fire in California History" that occurred on November 8th, 2018 in Paradise, California which completely levelled to dust, some 19,000 buildings.

In addition to all the capitalist players that profit from disaster is Robert Steele, who was President of the Board of Directors for the local Redwood Credit Union bank in Sonoma County.

Redwood Credit Union celebrated taking in over \$32 million for disaster relief from caring people directly after the Santa Rosa fires in the fall of 2017. Robert Steele has been a volunteer RCU board member since 1999, and is the executive product director of Underwriting Integrity and Solutions with Allianz Global Corporate and Specialty in Petaluma, CA. He has worked in the insurance industry for forty years.

A central yellow box with red text asks "Who Profits ???".

One of Allianz Global's main revenue streams they call "Business continuity: Managing disaster and disruption." So, it can be presumed that Mr. Steele, as well as the other major capitalist disaster players that have associated themselves with the Santa Rosa fires, have/are profiting greatly from the continuing California disasters that are now the "new abnormal".

None of the hundreds of victims I have spoken with from the Santa Rosa, have seen one penny of relief from Redwood Credit Union but were offered low rate loans of 2%, collateralized against their lands, to help assist them after they had lost their homes and all possessions literally overnight. Not one had said that they received any free money or help.

The hottest forest fires reach only reach temperatures of 1472 F degrees, yet homes were "dustified" to just ashes, melting granite, stone, iron and steel but many BBQ's remained untouched. Cars were completely torched to their core, engine blocks in some, gone completely. For these events to occur, temperatures would have to have been upwards of 2500-3000F to melt over time, but the dense metals were dustified in a matter of minutes, just like the three towers of the World Trade Center on 9/11/01.

In addition, trees were left untouched, baseball fields carved with direct energy straight lines through them while plastic mailboxes and garbage cans left untouched. Also, these new "abnormal" fires would torch several homes on a street yet leave others completely unscathed and unharmed, as well as trees and shrubs directly adjacent to the torched homes.

Fast forward to 3 months after the Paradise, California fires that began on November 8th, 2018. Cal Fire Battalion Chief of the San Mateo/Santa Cruz Division, John Martinez, released an 80-page report declaring the Tubb fire, here in Santa Rosa, began due to a fallen private telephone pole weakened by woodpeckers! Woodpeckers!!! He also embraced the new "Fire Ignition Theory" which sets much of the blame for home and car destruction caused by fire embers entering in the homes causing gas explosions. Now California has made new requirements on all new homes being built that the must have solar panels and are banning gas from being used to build new homes. All new homes will be electric from now on, making home building costs skyrocket, furthering the homeless plight in California.

Estimators say that 97% of homeowners who lost everything did not carry enough insurance to cover the costs of rebuilding their homes. Toxic benzene was found on the torched lands, as well as in Paradise, while many first responders are finding extremely elevated levels of mercury in their systems as a direct result of the fires as well. Homeowner insurance companies have now been allowed to let lapse policies because then Governor Jerry Brown declared that the fires are the new "abnormal" and will continue to increase in intensity for "the next 10, 15 to 20 years." The term "abnormal" relieves insurance companies from having to provide insurance, since abnormal is an "act of God" and insurers presumably cannot predict unpredictable events.

Amazon has announced that it is entering the homeowner's insurance business and will require many new restrictions and additions necessary to attain a homeowner policy including installing home surveillance systems, including Nest and Alexa.

15 Minute Slave City Prisons Cometh

World Economic Forum ~

"Historically, most cities grew up around trade, which then developed into more permanent places of commerce. Cities reduced transportation costs for goods and people by bringing them closer together. By

reducing these costs, cities increased productivity and thus further evolved the city as a multiplier of culture and innovation. (As Aristotle said, "The city-state comes into being for the sake of living, but it exists for the sake of living well.") More than a century after the adoption of automobiles as the dominant mode of transportation, work still dictated urban geography, with increasingly longer commutes. Suburbia, the antithesis of the 15-minute city, couldn't exist without proximity to an economic urban engine.

Indeed, the decentralization of work is not going to kill the city, it's going to save it. There will be a lot of creative destruction along the way, but that is how the city renews itself: from within. The cities that don't decentralize work will struggle mightily in ways both known and unimaginable.

As climate change and global conflict cause shocks and stresses at faster intervals and increasing severity, the 15-minute city will become even more critical. Anyone who has followed Erik Klinenberg's work knows that resilience is rooted in place. Specifically, communities that foster and maintain social and economic relationships don't have to be wealthy, but they do need to be walkable and safe, with both residential and commercial buildings intact. And, I would add, for 15-Minute Cities to thrive, not just survive crises – and this cannot be stressed enough – they must also have plenty of mixed-income and equitable housing, as well as digital access.

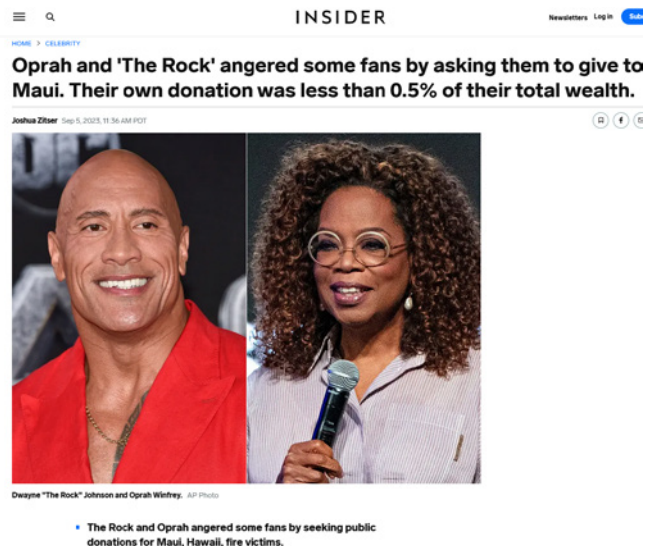

This is how neighbors can know and understand each other: as local store owners and workers, colleagues, caregivers, educators, and friends. These are the people who come together when it matters most. The mutual-aid groups that appeared during the pandemic exemplify the importance of social cohesion in a crisis, which only works if necessities are within a reasonable distance of where people live. Outraged Americans blasting President Joe Biden after he said 'no comment' when asked about the catastrophic Maui wildfire, now the deadliest US blaze in over a century. Despite the death toll climbing to about 100, Americans were outraged that Biden remained sunbathing on a beach near his Delaware home.

ZERO Money has gone to the victims of Paradise, yet tens of millions were taken in by donations. This is another huge psyop to get donations that never get to the victims in need. I witnessed the same type of disaster capitalism at work when I went to visit the victims of Hurricane Harvey in Houston during the floods in the fall of 2017. Red Cross had taken in over \$425 million dollars in donations and not one person, out of the 50 or so I interviewed had gotten any assistance from Red Cross services.

Local city councils continue to neglect services for the displaced and homeless while permits to rebuild are delayed and pushed back keeping land owners from rebuilding as homeowners insurance coverage for their losses are lapsing, meaning homeowners still owe monthly mortgage payments even though they have no home to live in! Additionally, many are buying RV's and living in them on the streets of many cities in California while lawmakers are passing legislation banning people from sleeping in cars at night and parking on the streets.

Homelessness is occurring in many states of the US even as Wall Street stocks are hitting all-time record highs entering the fall of 2019. The incredible, never before seen Current debt load the US government has allowed to be created since the market crash of 2008, is over \$33 Trillion! This dwarfs the debt of the Great Depression of 1929 by a factor of ridiculous. Add onto the US current debt, the \$280 Trillion Obligated debt (Social Security, Medicare, Federal Obligations, Derivative Debt load, etc.), and you are seeing the Mother of All Bubbles being created. WHEN they collapse the stock market, the Central Bank Digital Currency will be introduced and no cash will be allowed.

Premeditated FEMA. Already There

Why was FEMA and California Emergency Services set up and a massive camp weeks before the Paradise attacks at Chico, CA Airport if they did not know the attacks were going to occur?

We now have much evidence that before the Paradise fires, PG&E, Red Cross and FEMA were staged in the area. The Tuscan Golf Course was occupied by PG&E weeks before the fires encompassing over 80 acres of land. Additionally, I spoke with Red Cross officials, who were employed by the international security firm, First Guard, told me they had been stationed at the Butte County Fairgrounds in Chico since November 7th, the day before the fires! (Chico, Ca. is some 20 miles due northwest of Paradise.)

Also, FEMA had set up operations directly adjacent to the Chico airport with a massive operation run by the National Guard and the newly created California Emergency services. Deborah Tavares interviewed one of the guards who repeatedly told her that he had been stationed there well before November 8th and referred to the fires as "attacks". The FEMA camp was massive with over a dozen 5th wheel trailers, two huge circus tents and hundreds of troops. Amazingly, weeks and months after the fires, FEMA claimed that they did not have any land available to put trailers that were displaced by the fires.

Two weeks after the fires I traveled up to Paradise and witnessed the massive operation by PG&E that covered a large portion of the former Tuscan Golf Course. The picture to the left is now the new permanent sight that PG&E has installed to "help Paradise rebuild", all this for 19,000 buildings destroyed, yet only a select few have been able to rebuild coming up on a year after the event. The first day I was in Paradise after the fires, we counted over 250 PG&E trucks coming down from Paradise at the end of their work shifts along Skyway Drive. As we traveled up highway 70, to the south of Paradise, we witnessed a massive clear cutting operation going on for over 10 miles along highway 70 going towards the Concow Dam.

The cherry picker trucks, and their crews, were cutting every tree down that was within 30 feet of the road on both sides, even trees that were perfectly healthy ones. This made no sense that such a large operation would be conducted where no homes were located. As we gained access to Paradise we found more major tree clearcutting going on inside Paradise as well as major fiber optic cables being laid above and below ground while the charred out homes laid bear with the scarred out remains of the shells of fire torched cars still in the driveways.

It was bizarre to see such major operations to clear trees, some undamaged by the fires, as well as, why the priorities would be to lay fiber optic cable as a priority before clearing the lands so homeowners could begin to rebuild. Two months later, as homeowners became anxious to rebuild on their lands, the toxic benzene was found in water supplies, just like what had occurred in the Santa Rosa fires. This delayed the permit process to rebuild in both areas.

The evacuees that we could find had originally sought shelter next to the Walmart in downtown Chico. We went to the tent city and were told that most

of the people in tents were homeless people from Chico that had been rounded up and moved the area, not evacuees from the fires. Additionally, the guard at the Butte County Fairgrounds told us that 3 Red Cross evacuee facilities had been set up. This guard had worked at all three facilities, including the one we interviewed him at where some 80 victims were being quarantined for the Novo virus outbreak said to have occurred after the fires. He told us that he estimated no more than 90 people were in the Butte County Fairgrounds Red Cross shelter and that the other two had "maybe 300 people there." A far cry from the 52,000 that were said to flee with nothing but the clothes on their backs and no warnings. Sound familiar?

Laser Focused & Precision Execution

Green light lasers are the most common and popular today. As a leading manufacturer of underground laser alignment tools, Laser Tools Co. Inc. shares that green laser light is ten to 50 times brighter than the red light lasers. This means improved visibility of laser lines or dots, even during broad daylight and in direct sunlight. It can travel longer distances of up to three miles, which is why it is an essential in various industrial worksites. Its wavelength is 532nm and its power is 5mW to 130mW.

Red Light Laser ~ Red light lasers were once the standard, but lost its supremacy down the road. Red lasers lack the power and distance possible in newer models. Red lasers use diodes, optics, and various electronic components. Its wavelength is 630-680nm and its power is 5mW and below.

Blue Light Laser ~ Blue light lasers have a shorter wavelength compared to red lasers, allowing for stronger focus or resolution in very fine structures in imaging applications. They are used in interferometers like compact discs, laser printers, digital photofinishing, data recording, and CD and DVD players. Its wavelength is 445nm and its power is 500mW.

Yellow Light Laser ~ Yellow light lasers are commonly used in hospitals and have good effects on several viral infections, multiple sclerosis, and helps patients with panic attacks, depression and anxiety disorders. Its wavelength is 593.5nm and its power is .6-19mW.

SASER technology

A sonic boom in the world of lasers!
 June 17, 2009 A new type of 'laser' for generating ultra-high frequency sound waves instead of light has taken a major step towards becoming a unique and highly useful 21st century technology.

What is Laser?

LASER is an acronym for:

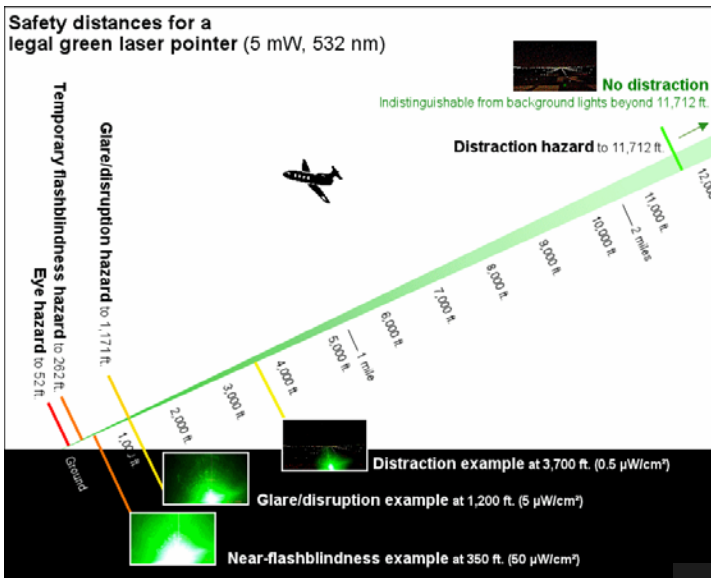

- L : Light
- A : Amplification (by)
- S : Stimulated
- E : Emission (of)
- R : Radiation

Term coined by Gordon Gould.

Laser means to absorb energy in one form and to emit a new form of light energy which is more useful.

Lasers are used for eye surgery, to remove tattoos, to cut down trees and many, many more uses. You can go to 7/11 and buy a laser pen for \$ 3 and you can disrupt a pilot at several thousand feet. What do you think the military can DEW???

(KRON) — A Santa Rosa man was arrested Friday night for shining a laser at a Sonoma County Sheriff's Office helicopter, officials said. Around 9:20 p.m., the helicopter was on air patrol assisting police with a nearby sideshow.

The pilot and tactical flight officer were blinded by a blue laser for several seconds coming from the area of West Avenue. As the helicopter attempted to locate the exact location of the blue laser, the crew was struck by a green laser coming from the area of Pebblecreek Drive, the sheriff's office said.

The Many Uses of Lasers

Lasers can, and are, being used to manipulate mind control from the sky. Pulsed at certain frequencies and invisible to see, they are used to calm riotous crowds, cause heart attacks and many other mind control uses deployed at will at anytime, anywhere and anyplace.

The military has showed off their Active Denial System for years to prevent groups from advancing.

Pain without injury

The 'Active Denial System' deters attackers by sending a non-lethal millimeter-wave of electromagnetic energy, causing a burning sensation.

Underground Lightning, ULF, Used to Torch Homes and People from Inside

Very few understand the advanced technology to target specific areas using underground lightning, yet the technology exists and is being used to torch buildings from below. No fire expert can explain how trees burn only from the inside...had to be DEW.

Underground DEW (ULF) to Burn from Below

Invisible Fences

In western Virginia, a homeowner installed an invisible fence system to contain her golden retriever. During a lightning storm, a bolt struck the ground in a next-door neighbor's yard. The current traveled through water in the ground and was absorbed by the wiring used in the invisible fence. That current then traveled into the home, "frying" TVs, stereo systems, the AC unit, appliances, and more. The total cost to repair the damage was well into the five figures.

Water Pipes

Lightning can strike up to 2 miles away and travel through underground streams and water pipes into your home. If a water-using appliance is running, the current can cause damage to the appliance directly. It can also shock anyone using a shower or washing his hands/dishes.

Concrete Floors

Concrete floors are reinforced with metal that can conduct electricity from ground strikes. Experts advise not standing or sitting on concrete during a lightning storm. It is also advisable not to place sensitive appliances or equipment directly on concrete as they can also be damaged.

Wiring

If the electricity from a lightning strike is conducted by a home's gutters, windows, concrete floors, and other exterior conductive materials, it can jump to the home's electrical system. A direct hit or one nearby can cause an explosive surge that will destroy the wires. These wires can melt and ignite surrounding materials. Individual surge protectors can protect against small surges but are unlikely to prevent damage from a direct strike. Whole house surge protectors will protect your wiring, but it is always a good idea to unplug appliances and electronics during a storm.

Metal Windows

Aluminum windows can conduct electricity, though not as well as other metals like copper and steel. If a lightning strike is close enough, the coatings on aluminum windows and railings can melt.

Programmable Cold Plasma Fire Ember Nano Bots

One of the most absurd of premises laid out by forensic "fire officials" is that the fire embers can travel in the air for miles and then destroy structures, like the 100,000 sq. foot Kmart due to the "fire embers" or now renamed "fire brands".

On my aplanetru3 you tube channel I did a 2 hr. interview with Gabriel who worked on the programmable COLD embers and how they work. He worked on the technology and has provide much evidence to validate his claims. Also, on my visits to Paradise, local surviving natives told of the fire

embers being cold as cold plasma is used to activate and direct the “firebrands” to torch from the inside cars, homes and people.

“normal fire profile”?

Forensic Fire Officials have conveniently relabeled fire embers as “fire brands” that can travel miles over prevailing winds and selectively torch buildings but not burn the trees or dry vegetation, so their story goes..

Windborne embers can float miles ahead of a fire front, sparking spot fires wherever they land and posing a major risk to structures built near wilderness. They can also linger behind a fire, smoldering in place for hours like lit cigarettes or incense sticks before reigniting and laying waste to buildings and forests that fire crews had saved.

According to the [Insurance Institute for Business & Home Safety \(IBHS\)](#), up to 90 percent of homes and buildings ignited in a wildfire are lit by embers. Dry, hot conditions, lightning strikes, and violent winds—like those blowing through the tinder-dry West right now—exacerbate the risk.

“Embers are tricky,” says O’Meara, who was recently deployed to fight the still-burning [Sequoia Complex Fire in Sequoia National Park](#). “They ‘hide,’ if you will. They go up in the air with the convection, with the heat. But then as that heat goes away, or they’re heavier than the convection, they come down. And all bets are off when the wind is blowing, and it’s taking those embers two miles away from you. They will land anywhere and everywhere.”

Introduction

Over the past several decades, the number of devastating **wildland-urban interface (WUI) fires** has increased drastically, driven by climate change, fuel management practices, and increased human development in WUI areas [1]. **The WUI is the location where human development abuts or intermixes with wildland vegetation** [2]. Fires in WUI areas pose a high hazard to homes, people, businesses, and infrastructure, destroying thousands of structures annually in the United States [3]. Global statistics reflect similar trends [4].

Exposed to flames or heat from the fire via radiation, direct flame contact, or **firebrand showers**. Investigations of past fires [[5], [6], [7]] have found that **firebrands are responsible for the majority of structure losses in WUI fires**. Firebrands, or burning embers, are small pieces of burning material generated from vegetation or burning structures during a fire. Firebrands are lofted in the fire plume and can be transported up to 9 km ahead of the fire front [7]. **They can land in either a glowing or a flaming state and cause ignition of a structure several hours after the main fire front has passed**. Even though the evidence shows that **firebrands cause the majority of structure ignitions, ignition by firebrands has received less research attention than radiant ignition**.

the firebrands is much smaller. Full-scale tests have found that firebrands accumulate in the stagnation plane in front of structures, and that the accumulation of firebrand increases the ability of firebrands to ignite structures [[8], [9], [10]]. **Firebrand pile heating is expected to differ from heating by a single firebrand because individual firebrands in a pile can interact through reheating**. Reheating occurs when the firebrand pile shifts and the **firebrands which have maintained a higher temperature provide heating to lower temperature firebrands, thus raising their temperature and continuing the smoldering reaction**. Both the interaction between individual

Fire Features Normal, Not Suspicious

One Instagram [post](#) pushing a directed energy weapon conspiracy theory also incorrectly claims that features of the Maui fires are suspicious.

“The powers that be are at work again,” a voiceover begins, showing a series of photos of the fire’s aftermath. “This was no wildfire. A wildfire that demolishes buildings, leaving trees standing. Leaving restaurant umbrellas and trees untouched. Yet, having the power to destroy a boat in the middle of the ocean. ... Wildfires do not completely burn out vehicles, glass and all, yet leaving nearby trees and utility poles still standing upright.”

But University of California, Berkeley fire science expert [Michael Gollner told the AP that this is in fact typical fire behavior.](#)

“It’s actually very common that wildfires will burn out structures and vehicles but leave surrounding trees, utility poles, and other vegetation unscathed,” he said, adding that wildfires are often spread through embers, rather than direct contact with flames.

Embers also easily explain how boats can catch fire, although boats can also ignite from heat or flames if close enough to shore, a fire expert told Newsweek, in response to other social media posts questioning how boats could have caught fire.

Fire tornadoes and dry lightning are just the start of the nightmare when a bushfire creates its own storm

Spinning fire comes in three rough forms:

- [Fire-whirls](#) – these are relatively small on the ground but can reach hundreds of metres into the air, like a dust devil or willy-willy
- Fire-generated tornadoes – stronger than fire-whirls, these tornado-strength vortices that form during a fire are commonly known as “firenadoes”
- Supercell bushfire thunderstorms – the biggest and most dangerous form of fire rotation, when the whole bushfire thunderstorm itself spins

“We know fire-whirls exist, they can be up to a few hundred metres high,” said Nick McCarthy, who studies the interaction of bushfires and thunderstorms at the University of Queensland.

It gets worse — firenadoes and black hail

In 2003 the world’s first-known fire tornado or “firenado” was observed in Australia, when it carved a path of destruction during the [Canberra bushfires in which four lives were lost and almost 500 homes destroyed](#).

“A fire tornado is where the air is not only rising but it also starts to spin,” Associate Professor Tolhurst said.

What kind of impacts?

Kangaroo Island resident Brenton captured this footage of a “fire twister”.

Picture a tornado or a supercell thunderstorm and then add fire — windows being smashed, roofs getting torn off, trucks being flipped, plus erratic fast-moving fire.

Fire Embers That Destroy Only Buildings and Jump Freeways

We have been told by Cal Fire that the Tubbs fire was ignited by woodpeckers who weakened a private power pole in Calistoga the night of October 8th, 2017.

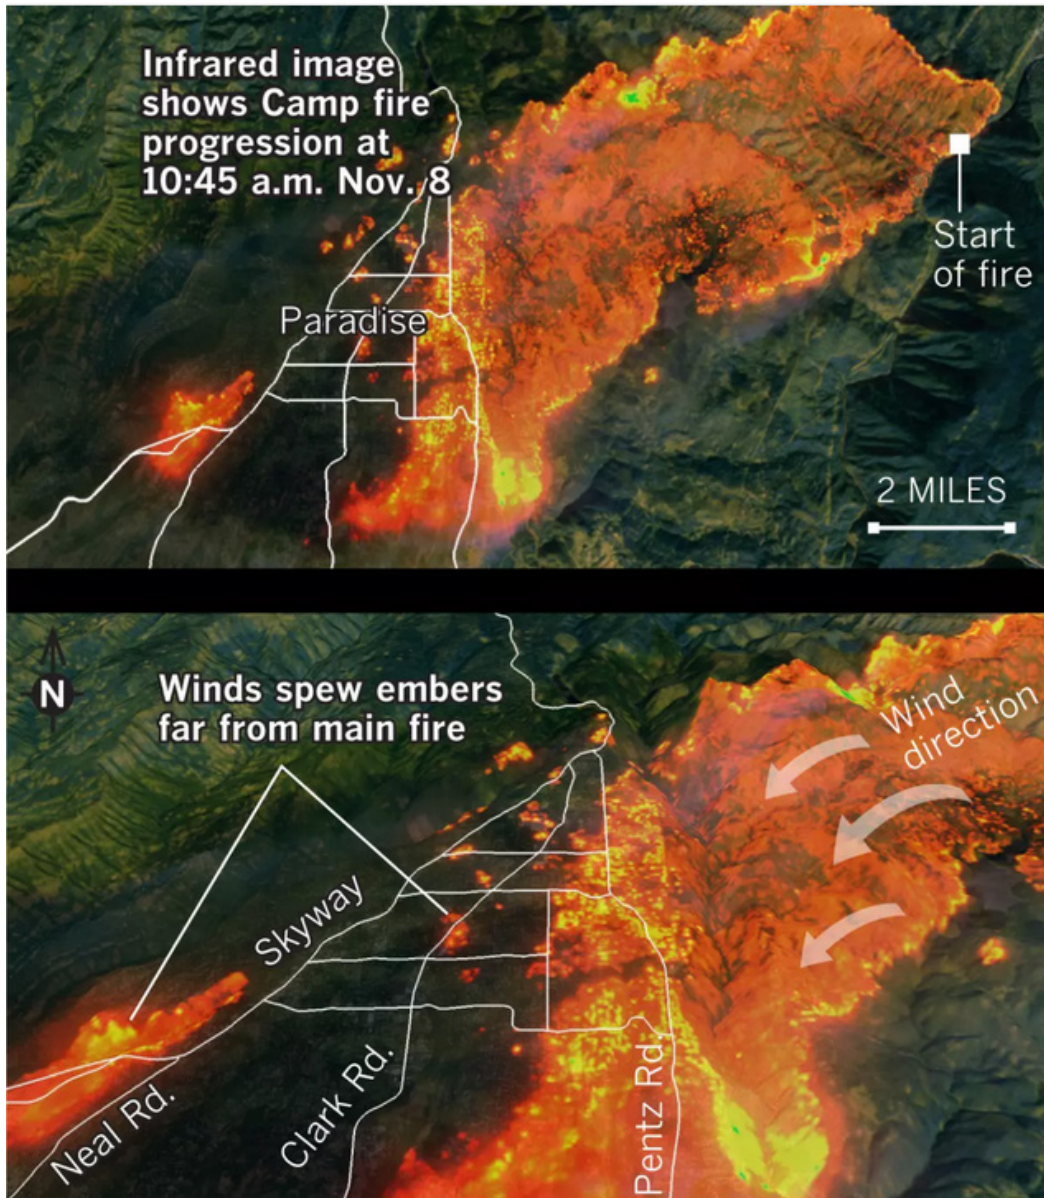

The 80-page report from a Cal Fire Captain out of Santa Cruz, named John Martinez, fingered this one spot as the cause where the fire raced through the Mayacama's mountains east at speeds of 70 mph where, when reaching Santa Rosa, and highway 101, the fire EMBERS, leaped across the six-lane 101 freeway west, then across a big asphalt parking lot and torched completely the insides of a 100,000 sq. ft. Kmart building, leaving the trees and bush untouched adjacent to the building.

Concerted or Coincidence?

Embers were said, by Cal Fire officials to have jumped across a six-lane freeway after being wind-blown through a canyon for some 30 miles when winds rarely, if ever, come in from the east here in Northern California. Additionally Arby's and Trader Joes stores were incinerated by the gas station next door to Arby's was untouched, nor were the trees and shrubs. Coincidence or concerted?

Remember, the Paradise fire winds were said to be traveling East to West @ 272 mph! Per Cal Fire Chief Ken Pimlott.

Proof of DEW

This is a photo I took across the Eel River about 2 miles South of Paradise after the DEW attacks. The hills were clearly laser DEW'd with scorching laser marks that cannot be explained by any fire profiles used by forensic fire officials who refuse to comment on this fact. The car was torched next to a gas station, who likely had to flee for their lives during the attacks on November 8th, 2016

This is another photo I took in Paradise showing laser holes at the base of many trees. Was this DEW from above or ULF underground DEW attacks? Photo to the right is a photograph given to me from a local resident that set of the famous "Burning Tree" at the Paradise mall. Laser can clearly be seen.

Had to share this one from earlier, looks like a laser from heaven caused this flare up. Our apologies god #woodranchfire #woolseyfire #heavenlylaser

You can say these images are photoshopped but you would be wrong.

“Uncredible Sources”; Geoengineeringwatch.org

Dane Wigington at Geoengineeringwatch.org has gone on record saying lasers would have to be visible if there were really DEW attacks. He blames all these attacks on a “Heat Dome” Yea Right!

<https://www.geoengineeringwatch.org/geoengineering-is-fueling-firestorm-catastrophes>

Many of the sites and sources pushing the " laser beams / directed energy beams" created the fires" false narrative are also propagating the "Flat Earth" and "global warming is a hoax" false and highly discrediting narratives.

All this being said, in regard to the recent and ongoing California firestorms there are a great many baseless claims circulating on the internet that should cause us all to take immediate pause.

These narratives include the suggestion that everything from laser beams to military incendiary bombs were used to cause/create recent and ongoing catastrophic fires.

Though laser and directed energy weapons do exist in some forms (<https://www.airforcetimes.com/news/your-air-force/2016/06/25/air-force-has-directed-energy-weapons-now-comes-the-hard-part/>) there is no documentation whatsoever to confirm any sky to ground laser / directed energy platform is even remotely capable of causing massive and instant vaporization of countless structures over vast expanses.

If such instant and extreme destruction were to occur (from massive laser / energy beams, spiraling down from the sky in the middle of the night), wouldn't they have been seen by many?

If such instant destruction technology does exist, and was used, why is there so much film footage of extreme wind and heat driven flames during the fires? Even if "directed energy" weapons of this caliber existed, and were used, CAL FIRE and thousands of residents would also have to be a part of such a coverup (which is completely implausible). Again, " laser / directed energy beams" (if a technology for such sky to ground decimation even exists) would be extremely visible.

Again, though some have referred to technology (that does exist) for extremely powerful laser and plasma beams, emission can only be produced from a ground bases source with access to extreme levels of power.

Pulled Over by Onstar and DEW'd In Their Cars

When I went to Paradise I looked inside these cars and saw bones melted into the floorboard springs. It is a site I will never ever forget and still haunts me to this day. I did not have the guts to look inside the school bus which was filled with children on their way to school. Onstar was used to pull over the cars. Note how aligned the cars are. Would you park bumper to bumper if you were fleeing? NO...you'd get out and run, like they did on Front Street in Lehaina.

Dr. Judy Woods wrote a book about the likelihood that Directed Energy weapons had to have been used on 9/11/01, yet when the California fires began in 2007 with the exact same type of profiles, especially with the cars, she denied the possibility of DEW being used despite hundreds of witness' who saw the lasers, including myself on October 8 th , 2017. “Great Fires” Throughout His-story Destroyed by DEW

As the story goes, the great fires of 1871 in Chicago was caused by Mrs. O’Leary’s cow when she kicked over a bucket that ignited the greatest fire in USA inc. his-story, we are told/sold.

On October 8, 1871, a fire broke out in a barn on the southwest side of Chicago, Illinois. For more than 24 hours, the fire burned through the heart of Chicago, killing 300 people and leaving one-third of the city’s population homeless. Rain put out the fire more than a day later, but by then it had burned an area 4 miles long and 1 mile wide. The fire destroyed 17,500 buildings and 73 miles of street. Ninety thousand people – one in three Chicago residents – were left homeless by the fire.

The Great Chicago Fire, which occurred Oct. 8, 1871, is a significant event that interests Slippery Rock University history and safety management professors alike.

And amazingly, the city of Chicago was able to regroup and rebuild and put on the most spectacular World Fair Exhibition in the world bringing in millions of visitors. All rebuilt by horse n' buggy we are told/sold in just 22 years time.

"The World's Columbian Exposition (also known as the Chicago World's Fair) was a world's fair held in Chicago in 1893 to celebrate the 400th anniversary of Christopher Columbus's arrival in the New World in 1492. The exposition covered 690 acres, featuring nearly 200 new (but deliberately temporary) buildings of predominantly neoclassical architecture, canals and lagoons, and people and cultures from 46 countries. More than 27 million people attended the exposition during its six-month run. Its scale and grandeur far exceeded the other world's fairs, and it became a symbol of emerging American exceptionalism, much in the same way that the Great Exhibition became a symbol of the Victorian era United Kingdom.

Dedication ceremonies for the fair were held on October 21, 1892, but the fairgrounds were not actually opened to the public until May 1, 1893. The fair continued until October 30, 1893. In addition to recognizing the 400th anniversary of the "discovery of the New World" from the European perspective, the fair also served to show the world that Chicago had risen from the ashes of the Great Chicago Fire, which had destroyed much of the city in 1871. ~ Wikipedia

And the story goes that the entire fair was demolished by fire in 1894.

Again and again we see the same exact profiles of complete and utter devastation, except for certain areas, like the city capitol building, which remained standing while all other buildings were leveled and dustified.

San Francisco Earthquake 1906 & Fire...

Though Some Building and Poles Were Left Untouched

Just 9 years after the DEW attacks in SF, A World Fair was hosted for millions of people! Does this make any sense to anyone after the complete leveling of SF? Where did they stay? How did they rebuild so quickly? Why was it destroyed shortly thereafter?

The Pan Pacific Exhibition in San Francisco, California in 1915~ Open for 9 months ..Then Destroyed Directly Thereafter

Just nine years after the devastating 1906 earthquake, San Francisco staged the 1915 Panama-Pacific International Exposition, celebrating the opening of the Panama Canal in August, 1914 and showing more than 18 million visitors from around the world that it remained "the city that knew how." Understandably, the universal reaction of fairgoers was "a sense of wonder." Amazingly, there were no bridges across the San Francisco Bay and the population of San Francisco, still reeling from the major 1906 Earthquake, was estimated to be under 200,000 people!

The building of the canal itself was, of course, an incredible feat: Over 50 years in the making, it was dubbed "*The 13th Labor of Hercules.*" And so was the creation of the Exposition, beginning with the placement of 300,000 cubic yards of fill to create land for the site from what had formerly been San Francisco Bay and is now San Francisco's Marina district.

The times were heady, and rapid strides were being made in engineering and manufacturing. Consider just a few notable aspects:

The fair featured a reproduction of the Panama Canal that covered five acres. Visitors rode around the model on a moving platform, listening to information over a telephone receiver.

The first trans-continental telephone call was made by Alexander Graham Bell to the fairgrounds before the fair opened, and a cross-country call was made every day the fair was open.

The ukelele (originally a Portugese instrument, but adopted by the Hawaiians) was first played in the United States at the 1915 fair, creating a ukelele craze in the 1920s.

An actual Ford assembly line was set up in the Palace of Transportation and turned out one car every 10 minutes for three hours every afternoon, except Sunday. 4,400 cars were produced during the Exposition.

The entire area was illuminated by indirect lighting by General Electric. The "Scintillator," a battery of searchlights on a barge in the Bay, beamed 48 lights in seven colors across San Francisco's fog banks. If the fog wasn't in -- no problem: A steam locomotive was available to generate artificial fog.

Personalities abounded: Thomas Edison and Henry Ford were honored at a luncheon; Edison had perfected a storage battery that was exhibited at the fair. A pre-teen Ansel Adams was a frequent visitor.

- The Liberty Bell made a cross-country pilgrimage from Philadelphia to be displayed at the fair. Notables, such as **Thomas Edison**, were often photographed with the bell.

Inspired by the discussion about former Aryan culture in [this thread](#), and particularly Japanese Ainu people, as being part of this culture, I've decided to post some juicy photos that I managed to find recently on [this website](#).

“Bomb ‘em Back to the Stone Age” General Lemay

So this is who the USA inc. military honors and supports with their DEW task force!

LeMay, appointed brigadier general in September 1943, approved of the strategy. In his opinion, “There are no innocent civilians. It is their government and you are fighting a people, you are not trying to fight an armed force anymore. So it doesn’t bother me so much to be killing the so-called innocent bystanders.”

With the British bombing by night and the Americans by day, German cities were reduced to rubble, suffering five-figure casualties per raid, with large swaths rendered uninhabitable. The results of Allied bombing on Nazi war production are debated to this day, but according to postwar studies up to 305,000 civilians were killed, 780,000 wounded and 7.5 million left homeless, with almost half a million homes destroyed. More than 90 percent of the survivors attributed Germany’s defeat to aerial bombing.

LeMay came up with a diabolical solution: If the Superfortresses couldn’t bomb from high altitude in broad daylight, then they would do it from low altitude at night. Without high winds or Japanese fighters to battle, they could carry less fuel, fewer guns and more bombs. And the bombs would be incendiaries – M47 phosphorus bombs and M69 napalm cluster bombs – for which traditional Japanese homes of wood and bamboo, walled with paper screens and floored with rice straw mats, would be little more than tinder and kindling. “No matter how you slice it,” LeMay told himself, “you’re going to kill an awful lot of civilians. Thousands and thousands. But...We’re at war with Japan. We were attacked by Japan. Do you want to kill Japanese, or would you rather have more Americans killed?”

To this day Operation Meetinghouse, the firebombing of Tokyo by 279 B-29s on the night of March 9-10, 1945, remains the single most destructive air raid in history. The Superfortresses flew single file over the city, dropping 2,000 tons of incendiaries, utterly destroying almost 16 square miles. More than a million people were left homeless and as many as 125,000 were wounded. Japanese authorities needed three weeks to clear away the bodies. How many burned to ashes in the inferno will never be known. Estimates range from 80,000 to over 200,000 dead – more than in the atomic blasts of either Hiroshima or Nagasaki – and almost all of them were women, children and the elderly. The Americans lost 14 bombers and 96 airmen. By war’s end his command, operating more than 1,000 Superfortresses, was the deadliest air force on earth, having killed at least 220,000 Japanese civilians, possibly more than 500,000, and left five million homeless. When he stood on the deck of the battleship *Missouri* to witness the signing of the peace treaty, LeMay saw to it that hundreds of his B-29s thundered overhead.

Dresden, Germany before DEW WWII Ally Attacks

According to Official History, 90% of the city center was destroyed. But this is not entirely true. The main buildings of the old citadel were spared.

There was a selective bombing that targeted residential dwellings as well as factories and military facilities. Dresden was a huge Star Fortress and capital of the Free State of Saxony, which did not obey to the "Pope" and to the new emperors. The region had been entirely colonized by Aryan and housed over 600,000 war refugees whom the Invaders had an interest in exterminating. Dresden was an important economic center, with 127 factories and military facilities that could house 20,000 people. The city's skyline continues exactly as it was in the 1800s and probably still draws energy from the ether. But the ancient inhabitants were gone to give place to the invaders.

Operation Desert Storm, Iraq 1991

From January 16 until February 27, 1991, the U.S. led a massive war of aggression, based on lies, against Iraq, a war which killed some 100,000 Iraqi soldiers, wounded another 300,000, and led to the deaths of 70,000 civilians by January 1992.

On August 2, Iraq's army invaded and occupied the neighboring country of Kuwait, a U.S. ally. President George H.W. Bush denounced Iraq's action as "unprovoked aggression" and declared that it "will not stand." Over the next five months, the U.S. built a military coalition and deployed more than 500,000 American and 200,000 allied troops to the Persian Gulf. The U.S. and its allies pushed through UN Security Council resolutions demanding an Iraqi withdrawal and the imposition of punishing sanctions.

Coalition planes targeted Iraq's leadership and government and its military facilities and forces. But they also targeted Iraq's civilian economic and social infrastructure — a war crime. U.S. and British bombs and missiles destroyed 80 percent of Iraq's oil and gas refineries, many of its telecommunications centers, more than 100 bridges, and 11 of Iraq's 20 power-generating stations. By the war's end, Iraq's electrical generation had been slashed by 96 percent.

Modern Day World Wide DEW'ding

The fires have become so "unpredictable and extreme" worldwide that new words were invented: firenado, gigafire, fire siege – even fire pandemic.

From Portugal and Spain to China, Australia and England, we see the same exact DEW profiles. No fire experts have yet to explain how 3,000 pound cars got flipped on their roofs!

Alberta, Canada “Beast” 15 month Fire May 2016

The “Beast” was initially determined to be a minor fire and put out in one day...and then it exploded and went on for 15 months. This was my first introduction to DEW reported by Carol at “Never Lose Truth” on social media.

“When wildfires encroached on the outskirts of Fort McMurray the morning of May 3, 2016, the general messaging from officials was “Go about your life as normal.” By noon, as John Vaillant reports in his book *Fire Weather: The Making of a Beast*, the tune had changed dramatically, to “Everyone out! Now!!” Eighty-eight thousand people fled the city, many carrying traumas that last to this day. Roughly 2,400 homes were destroyed, many in an explosive burst of incinerated fury, because the heat was so extreme. By the time the fire expired 15 months later, it had consumed 5,900 square kilometres of forest and caused \$9.9 billion in damage. They called it The Beast”.

— Home foundations and shells of vehicles are nearly all that remain in a residential neighborhood destroyed by a wildfire on May 6, 2016 in Fort McMurray, Alberta, Canada.

Tianjan China 2017

Authorities pulled more bodies from a massive blast site at China's Tianjin port, pushing the death toll to 112 Sunday as teams rushed to clear dangerous chemicals and prosecutors prepared an investigation into those responsible for the disaster.

More than 700 people were injured and 95 people, including dozens of firefighters, are missing after a fire and rapid succession of blasts late Wednesday hit a warehouse for hazardous chemicals in a mostly industrial area of Tianjin, 75 miles east of Beijing. By Sunday, authorities confirmed there were "several hundred" tons of the toxic chemical sodium cyanide on the sit, although they said there have not been any substantial leaks. Sodium cyanide is a toxic chemical that can form a flammable gas upon contact with water.

The death toll includes at least 21 firefighters – making the disaster the deadliest for Chinese firefighters in more than six decades. About 1,000 firefighters responded to the disaster, and 85 of them remained unaccounted for Sunday. Angry relatives of the missing firefighters whose homes were destroyed by the blasts showed up at a government news conference Sunday to demand information and accountability.

"Explosion" yet no cars flipped?

London, England March 2018

Official sources report that the fire - one of the worst ever dealt with by Merseyside Fire and Rescue Service - started when a Land Rover burst into flames, igniting other vehicles. Motorists abandoned their cars and fled along with 4,000 people attending the Liverpool International Horse Show at the Echo Arena. Temperatures during the blaze reached 1,000C - equivalent to flowing lava - far higher than the previous estimate of 600C, a council report confirmed.

So, one car catches fire and creates a 1,000F fireball, hot as lava, and burns over 1400 cars INSIDE a parking garage!

Australia 2019-2020 ~ Black Summer

The 2019-20 Australian bushfire season[a] or Black Summer was a period of bushfires in many parts of Australia, which, due to its unusual intensity, size, duration, and uncontrollable dimension, was considered a megafire. Exceptionally dry conditions, a lack of soil moisture, and early fires in Central Queensland led to an early start to the bushfire season, beginning in June 2019. Hundreds of fires burnt, mainly in the southeast of the country, until May 2020. The most severe fires peaked from December 2019 to January 2020.

The fires burnt an estimated 24.3 million hectares (243,000 square kilometres),[b][1] destroyed over 3,000 buildings (including 2,779 homes),[18] and killed at least 34 people. It was claimed that three billion terrestrial vertebrates– the vast majority being reptiles– were affected and some endangered species were believed to be driven to extinction. ~ Wikipedia

Again and again and again we see the fire “anamolies” worldwide. Here is several ton fire truck tender that was flipped onto its roof and one firefighter killed inside. What kind of fire can lift and overturn such weight?

Again and again, the most selective fires in history where some buildings are spared where others are torched while trees are left alone...and these are eucalyptus trees, some of the most fire prone of all trees that ignite easily and burn quickly, yet not in these megafires.

In the Northwest Territories, there's not much left in the town of Enterprise just north of the Alberta border. Much of the community was destroyed by flames and everyone was ordered to get out. It's not advised, but some stayed behind. Lyne Maisonneuve and her partner Mike Kimbel defied the evacuation order and returned home. They say a crew from High Level stopped briefly to help, but with the Hamlet ablaze, the couple went to great lengths fighting back the flames all on their own. Residents say *95 per cent of the hamlet is completely gone*. They are wondering where the help and water bombers were when they needed them the most.

BEFORE

AFTER

Quebec, Canada May 2023

~ wikipedia Beginning in March 2023, and with increased intensity starting in June, Canada has been affected by an ongoing, record-setting series of wildfires. All 13 provinces and territories have been affected, with large fires in Alberta, British Columbia, the Northwest Territories, Nova Scotia, Ontario, and Quebec.

The 2023 wildfire season had seen the most area burned in Canada's recorded history, surpassing the 1989, 1995, and 2014 fire seasons, as well as in recorded North American history, surpassing the 2020 Western US wildfire season.

As of September 2, 6,112 fires had burned 161,289 square kilometres (62,274sq mi; 39,855,000 acres), *about four percent of the entire forest area of Canada and more than six times the long-term average of 2.64 million ha (6.5 million acres) for that time of the year. On September 2 there were 1,074 wildfires active, and 700 of those were deemed "out of control".* International aid has helped reduce the impact of the fires.

Hi, I'm a professional in the wildfire field here in the United States of America and can probably answer any questions you may have with varying degrees of accuracy.

Anyway, this year Quebec has been suffering from historic drought conditions and, with traditional lack of forest management and natural fires, extreme levels of wildfire fuel loading.

Basically there's a larger bulk of burnable material that is drier than normal thanks to lack of consistent and wetting moisture that would normally moderate fuel moistures.

The bulk of fires in Quebec this fire season thus far are due to mostly dry/non-wetting thunderstorms that form in wakes of record high temperatures. Some, however, are due to other causes such as earlier recreation in the wildland as well as long-distance spotting caused by extreme fire behavior (fires throwing burning material up to many miles due to atmospheric conditions.)

Blame it on "Climate Change"

Canadian Minister of Public Safety Bill Blair said: "These conditions, this early in the season, are unprecedented. Due to climate change, similar extreme weather events may continue to increase in both frequency and severity across our country." Following the Quebec wildfires, an analysis by World Weather Attribution showed that in Quebec, because of climate change, fire weather is twice as likely to occur and 20% more intense. The 2023 Western North America heat wave exacerbated the wildfires in Alberta.

All of that is great, but there is currently no drought in Quebec, it hasn't been an especially dry year. That is true of Western Canada, but those aren't the fires that the OP is asking about.

Lightning seems the most probable, but I also can't find any evidence of storms in the area at the time, would be happy to be proven wrong though.

Look at this “image” from NASA..NOT A SPACE AGENCY.

Does the smoke trails look like they are even connected in anyway? And note the travel of the chemfog smoke going WEST and North. And notice the high pressure front to the East to keep the chem fog in place.

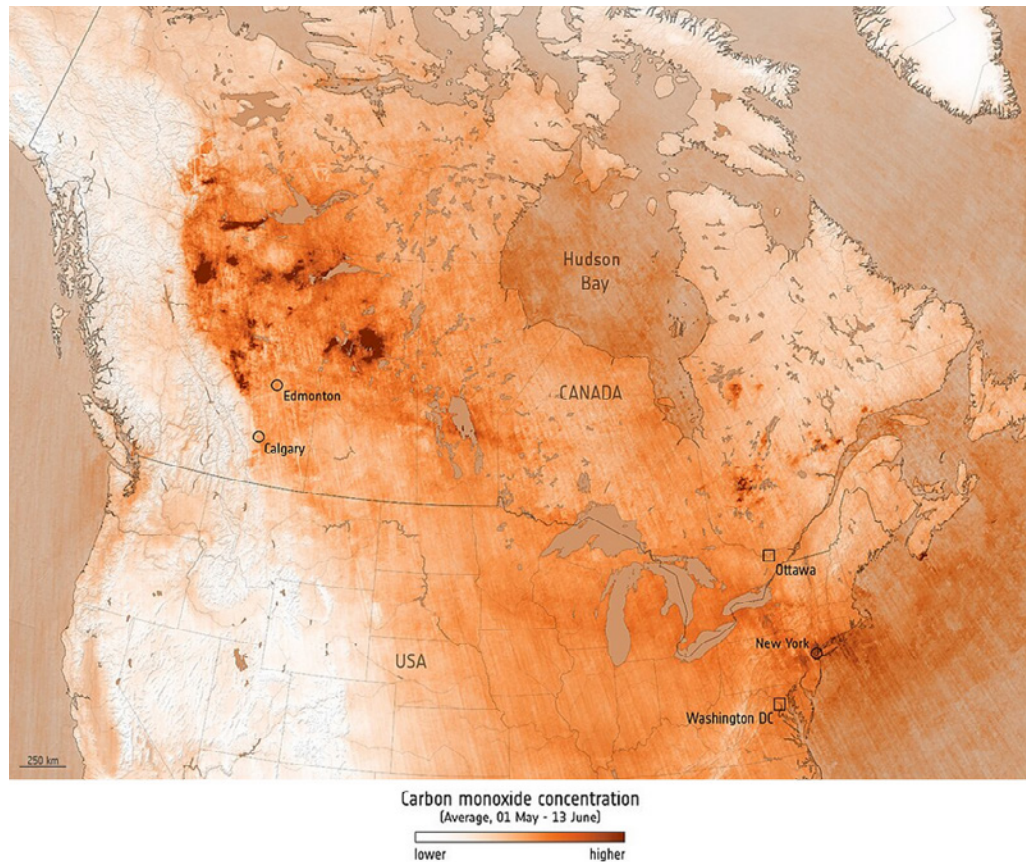

Fires are still burning in Canada.

New fires – some caused by lightning – raged in Quebec in early June, prompting evacuations and air quality warnings.

@nasa’s Aqua satellite captured this image of smoke from the fires on June 3, 2023. [go.nasa.gov/3oQEN10](https://www.nasa.gov/3oQEN10)

So the story goes...that massive lightning strikes hit Quebec that caused over 1,400 wildfires to start combustively from presumed strikes and blamed on drought conditions when Canada had an above average rain year in 2022/2023. The chemical created faux smoke from geoengineering traveled south all the way to NYC for a good photo op, even though wind profiles during the fires were to the north and south! As seen in the picture above is the sheer absurdity that the smoke from the fires traveled all the way down past NYC to Wash D.C. and all the way across the Atlantic Ocean.

So they are literally blowing smoke up our minds to make believe that these chemfog trails are caused by fires almost 1,000 miles away? Riiiiiiiiight! Makes for a great photo op though!

The Quebec 'fires' laid out the same type 'chem fog' as in Paradise. The same Chemfog was laid out over CA after the Paradise attacks of Nov. 2018.

SACRAMENTO – A new California Air Resources Board (CARB) analysis of air quality data collected during the deadly Camp Fire sheds new light on exactly what was in the thick smoke that blanketed much of Northern California for two weeks in November 2018. The document, published today, shows smoke produced from the Camp Fire exposed Californians to dangerous levels of particulate matter and contained concerning levels of toxic metal contaminants, including lead, which spiked for about 24 hours.

Chapter 5

The New Abnormal

Selling Wind Absurdities and Fire Anomalies

Over and over we see the winds, the winds, the winds being blamed for the mass spreading of the DEW'd wildfires. Winds said to travel at hundreds of miles an hour are now explained as the "new abnormal" based on ...wait for it..wait for it..."Climate Change". The same MO is used where high pressure over mountains and high ridges drives intense, never before recorded winds to fuel the fires.

After the Paradise fires they created the story of the "Diablo" (the devil) winds as they cause for the fires on Nov. 8th, 2018. The absurdity of this claim is that the "Diablo Winds" had never been recorded before AND Mt. Diablo is over 200 miles TO THE SOUTH, not East of Paradise and Butte County. They just make this up as they go and everyone swallows it, hook, line and sinker.

Diablo winds bring the heat

Strong northeasterly winds from inland heat up as they descend the west side of the Sierra, cross the Central Valley and climb over the Coast Range.

Maui

The Winds, The Winds, The Winds from a "dry" hurricane Dora, some 600 miles south of the Hawaiian Islands is said to have caused the torching of just 3 areas on 1 island only. Again, the world's most selective fires! Yet forecasts the day before said hurricane posed no threat to all of Hawaii.

UPDATE: 5 p.m.

Powerful Hurricane Dora is **maintaining a steady westward path to pass far south of the Hawaiian Islands.**

Central Pacific Hurricane Center forecasters said Dora poses no direct threat to the islands.

The National Weather Service has issued a slew of weather warnings and advisories affecting Hawaii.

As of 5 p.m., **Dora was located about 565 miles south-southeast of Hilo** and about 1,195 miles east-southeast of Johnston Island. Dora was moving west at 23 mph with maximum sustained winds of 130 mph with higher gusts.

Dora is still forecasted to gradually weaken over the next several days.

Hurricane-force winds extend outward up to 30 miles from Dora's center and tropical-storm-force winds extend outward up to 115 miles.

Dry Hurricane Dora's Impossible Explanation as To Torching Lehaina

Hurricane Dora, we are told/sold rode a high pressure front and nailed just 3 areas in all the Hawaiiin Islands and completely obliterated only Lehaina... Riiiiiiiiiiiiiiiiiiiiight!

The pressure difference between high pressure to the north of Hawaii and low pressure associated with Hurricane Dora to the south has driven strong, gusty winds from east to west across the Hawaiian islands this week. (Ian Livingston/The Washington Post)

Hawaii wildfires

At least three wildfires on Hawaii's Maui have devastated the western side of the island, destroying thousands of buildings and killing at least 55 people. The death toll is expected to rise as search and rescue teams comb through the ruins of Lahaina, a tourist mecca that was once the capital of the Kingdom of Hawaii.

Absurd on the Premise Alone

We are told/sold that the Maui fires begin on the morning of 8/8/23 with a single fire, put out completely by first responders who even used a bulldozer to make sure the fire was out... then...magically..the fire reignites (climate change) and torches all of Leihana...and once again the “power lines” are to blame.

Hawaiian Electric outlines important facts about what happened on Aug. 8:

- *A fire at 6:30 a.m. (the “Morning Fire”) appears to have been caused by power lines that fell in high winds.*
- *The Maui County Fire Department responded to this fire, reported it was “100% contained,” left the scene and later declared it had been “extinguished.”*
- *At about 3 p.m., a time when all of Hawaiian Electric’s power lines in West Maui had been de-energized for more than six hours, a second fire (the “Afternoon Fire”) began in the same area.*
- *The cause of the devastating Afternoon Fire has not been determined.*

The utility provided more details about the fire:

- *The records conclusively establish that Hawaiian Electric power lines to Lahaina were not energized when the Afternoon Fire broke out shortly before 3 p.m. on Aug. 8, in a field near Lahaina Intermediate School. Power had been out for more than six hours by that time. There was no electricity flowing through the wires in the area or anywhere else on the West Maui coast. Hawaiian Electric has informed ATF investigators of the availability of records that demonstrate these facts.*
- *The small Morning Fire, seen in videos taken by local residents, began more than eight hours earlier. Those videos show that power lines had fallen to the ground in high winds near the intersection of Lahainaluna Road and Ho‘okahua Street at approximately 6:30 a.m. A small fire that can be seen by the downed lines spread into the field across the street from the Intermediate School.*
- *The Maui County Fire Department responded promptly to the Morning Fire. According to the Department’s public statement that morning, by 9 a.m. the Morning Fire was “100% contained.” The Maui County fire chief subsequently reported that the Fire Department had determined that the Morning Fire was “extinguished,” and the Fire Department left the scene by 2 p.m.*
- *Once the fire was out, Hawaiian Electric emergency crews arrived at Lahainaluna Road in the afternoon of Aug. 8 to make repairs; they saw no fire or smoke or embers. All lines to Lahaina remained de-energized and all power in the area remained off.*
- *Shortly before 3 p.m., while the power remained off, our crew members saw a small fire about 75 yards away from Lahainaluna Road in the field near the Intermediate School. They immediately called 911 and reported that fire.*
- *By the time the Maui County Fire Department arrived back on the scene, it was not able to contain the Afternoon Fire and it spread out of control toward Lahaina.*

Paradise Wind Absurdities

So, PG&E does not turn off the power at the onset of the Paradise DEW attacks because the 'winds did not warrant a shutoff', yet winds were said by Cal Fire Chief Ken Pimlott to travel at 272 mph!! Which is it guys?

Impossible Wind Speeds Coming From Impossible Directions

Cal Fire Chief Ken Pimlott went on CBS 60 Minutes and declared the Paradise fires were caused by never before seen winds coming from the East where 12,000 foot peaks block the winds. No warnings were given, and again, the "lone power pole" fell starting the Camp Fire that then rushed down to Paradise on the winds, the winds, the wind.

California's wind-driven blaze spurs massive evacuations

Published October 27, 2019 | Associated Press | →

SAN FRANCISCO (AP) — Authorities in Northern California ordered 180,000 residents to flee their homes Sunday as historic winds fueled a wildfire in the wine country, while electricity was shut off for millions of people in an effort to prevent more fires.

The fear that the winds could blow embers and spread fire across a major highway prompted authorities to expand evacuation orders that covered parts of Santa Rosa, a city of 175,000 that was devastated by a wildfire two years ago. The latest evacuation orders after Pacific Gas & Electric shut off power to 2.3 million people across 38 counties starting Saturday evening.

Malibu was hit on the same day as Paradise, yet the fire had been burning for 3 days when the “Santa Ana Winds” kicked in to go West to Malibu. Dry shrubs were said to be the fuel, yet the massive smoke plumes bring into question how ‘dry shrubs’ could create such fires storm by burning bushes?

Though the Malibu fire image presented shows in error that Malibu was hit on Nov. 11th. The Woolsey Malibu Fire was a wildfire that burned in Los Angeles and Ventura Counties of the U.S. state of California. The fire ignited on November 8, 2018, and burned 96,949 acres (39,234 hectares) of land. The fire destroyed 1,643 structures, killed three people, and prompted the evacuation of more than 295,000 people. It was one of several fires in California that ignited on the same day, along with the nearby Hill Fire and the destructive Paradise Fire in Northern California.

evidence of alleged violations of state law.

"The October 2017 Fire Siege involved more than 170 fires and burned at least 245,000 acres in Northern California," CAL FIRE said in a statement released Friday. "About 11,000 firefighters from 17 states and Australia helped battle the blazes."

Below is a CAL FIRE summary of the findings from the 12 completed investigations:

The Redwood Fire, in Mendocino County, started the evening of Oct. 8 and burned a total of 36,523 acres, destroying 543 structures. There were nine civilian fatalities and no injuries to firefighters. CAL FIRE has determined the fire started in two locations and was caused by tree or parts of trees falling onto PG&E power lines.

Why Doesn't the Asphalt Melt ???

We see no asphalt roads melting yet temperature of the DEW fires were over 2500F degrees to melt metal rims and flip 3,000 pound cars on their roof, yet the roads remained intact. How? Why?

How hot does asphalt get in 100 degree weather?

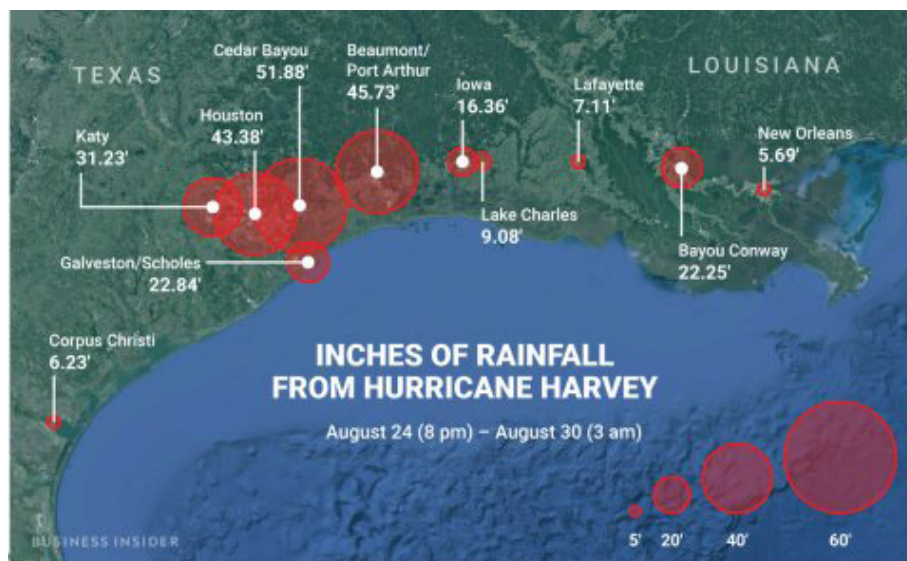

What temperature does tar turn to liquid?

Viscoelasticity means that the asphalt is -- rather frighteningly -- always capable of liquifying. Heat the stuff to around **250 degrees F**, and it will become liquid. Jul 9, 2012

Manufactured Manmade Hurricanes

I traveled to Houston, Texas two weeks after mass flooding drove thousands from their homes. To a person I interviewed they all said that it was "not a Hurricane". The forecast was for days ahead was telling all a Category 4-5 hurricane would hit Houston, yet the day before the huge winds were supposed to dump massive water, there were no winds...again.

The natives told me that the heavens "just opened up" with no hurricane type winds. The real damage was done, they told me, is when they had returned to their homes after being evacuated, and the next day they opened three major dams above Houston, and flooded out the residents again. This is what they told me caused the real damage.

How is it that the major hurricanes over the past decades have all occurred on the same date??

The average amount of precipitation for the United States is 85.6 centimeters (33.7 inches). In the Southwest, average precipitation ranges from only 34 centimeters (13.4 inches) in Utah to 39.9 centimeters (15.7 inches) in Colorado, which is indicative of the area's general aridity (Figure 8.10).

Just a week after Hurricane Dora was said to engineer the destruction of Lehaina, Hurricane Hilary was forecast over the Western states. Mass rainfall was predicted and then when the event happened, no significant rains occurred but the uber-hype to promote "Climate Change" in everyone's mind was set.

Sacred Lands of First People Must Be Eliminated

Maui Attacks on 8/8/23 Closing the Lions Gate Portal What is the Lionsgate 88 Portal?

The Lionsgate 88 Portal is the opening of a galactic gate that delivers high-frequency energy into our beings, allowing us to rebirth our spirit energy and the spirit energy of Mother Earth. This high-frequency energy can be used to open our energy centers, inspire new ideas, raise our consciousness, and enhance our ability to receive psychic downloads.

How is the Portal Activated?

The Lionsgate Portal is activated by the rising of the star Sirius, this takes place from the end of July all through the middle of August, however the numerology of 8/8, and the Sun reaching the halfway point or 15 degrees of the Leo zodiac at this time (the peak of Lion energy), has made August 8, the day we celebrate the portal.

Sirius is considered our Spiritual Sun, so the rising and return of Sirius was seen by ancient astrologers as the rebirth of our spirit energy and the spirit energy of the planet.

The rising of Sirius also corresponded with the rainy season and the flooding of the Nile, further supporting this idea of rebirth through the nourishing rain. Some cultures also used the rising of Sirius to signify the start of the new year.

88 in numerology represents infinity and DNA activation, allowing us to take this Sirius energy and infuse into the very core of our being. We can also unlock and upgrade the memory of our cells allowing us to bring more healing, peace, and love into our being. The Rising of Sirius, which ancient astrologers celebrated as the rebirth of Spirit, happens to occur right in the heart of Leo Season, which is ruled by the Lion. On August 8, the Sun is just past 15 degrees of Leo, which is halfway through the zodiac. Reaching this halfway mark also signifies the astrological midpoint between the June Solstice and the September Equinox. Reaching this halfway mark is said to thin the veil between the realm of spirit and the "3D world".

Lumeria, Land of our Ancient Ancestors Origins

The main social unit in the times of the Mu people was the Ohana (family.) The elders of the family were the “rulers” because they were the eldest and therefore considered the wisest; they were (and are today) called Kupuna. Also, amongst these elders were to be found the Kahuna (Ka=the and huna= secret, so they were the keepers of the secrets, or knowledge.) Unlike the depictions in Hollywood and TV, a Kahuna was not a spooky witch doctor, but was (and is) the master of a certain discipline. For example, a canoe maker is a Kahuna kalai wa’a (Kahuna=master, kalai=carver and wa’a is canoe, or a master of Hula is a Kahuna kumu hula.)

The Kupuna handled all disputes within the family, and also any problems that family members had with members of another Ohana. Thus, this was their equivalence to a legal system. The process whereby disputes were handled was called ‘Aha, which was a family meeting. Around the year 1250 A.D. a Tahitian priest (probably a Kahuna po’o or high priest) arrived in Hawaii from the island of Raiatea in present day Tahiti. Finding no high chiefs ruling the islands, and or no one who had, in his opinion, the proper royal lineage to rule, this man, named Pa’ao, sailed back to Raiatea (also known as Hawaii nui or great Hawaii) and recruited the prince Pili to go with him to Hawaii and rule. Pili was selected because he was of a pure royal bloodline, descended directly from the gods.

In Tahiti, the ruling chiefs or Ari’i (Ali’i in Hawaiian) were believed to be descended from the gods, who dwelt on the misty mountaintop of Temehane on Raiatea. The four premier gods were (Tane (Kane in Hawaiian,) Rongo (Lono,) Tu (Ku) and Ta’aroa (Kanaloa.) The central marae (sacred site, equivalent of heiau in Hawaii) was and is Taputapuatea (loosely translates as the most sacred white place, white being the colour of the spiritual system.) Taputapuatea was not only the religious center of Raiatea, nor even of Tahiti, but of the entire “Polynesian” world. Loosely similar to what the Vatican is to Catholics.

The people of Hawaii call themselves Maoli, just as the people of New Zealand, who are their relatives, call themselves Maori, as do the Tahitians and people of Rapanui. The “l” used in modern day Hawaii is “r” in the other island nations.

~ Brien Forester

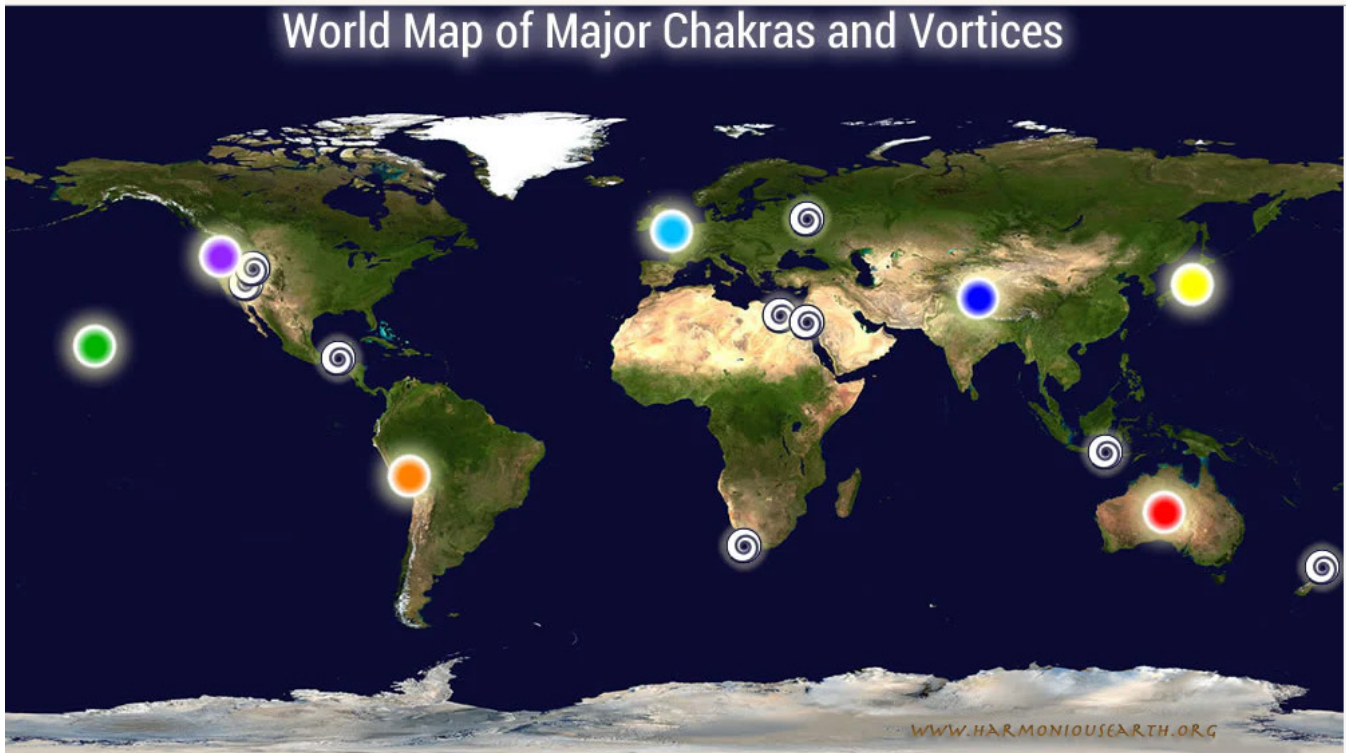

The Mu people were thought to have been a very peaceful race, highly evolved in the fields of agriculture, astronomy, fishing, navigation, and the fine arts, amongst other disciplines. They had no kings (Ali'i=king or high chiefly line) no great war lords, no great armies, and no system of laws. As such, the conquering Tahitians considered these first people as weak and undisciplined, and thereby called them Manahune; those of little power. But the power that these Mu people did have was of intelligence, practicality, and spirituality.

The stories which arose concerning great feats that were accomplished over the course of one night, such as the building of a temple (heiau) was because, in reality, the Tahitian overlords demanded that the Mu people, under slavery conditions, complete an undertaking within a very narrow timeframe. If the task was not completed within this set time, all would be slaughtered.

Earth's Energy: points and pathways

It is widely experienced, especially by native communities, and understood that our planet is alive, not only on the surface with visible growth but also inside its core.

Earth, Gaia, Terra, Tellus, is our precious planet. The living being we inhabit, a source of energy in its own rights, is placed at an amazing juncture on the galactic net.

Its energy body has points and paths of energy, just like our own body has chakras and meridians.

Connecting to nature and regularly grounding is essential to our own wellbeing. In fact, the quality of our connection impacts directly our health.

Further, tuning into the planet chakras can enhance and open up new ways of being for us, from healing to discerning new energy levels.

Heart Chakra – Maui, Hawaii

The energy on Maui, Hawaii, and specifically the Haleakalā volcano, is very feminine and nurturing. Just by stepping foot on her land, you can feel the unconditional love and see the abundance that she gives freely. The frequency atop the Haleakalā volcano matches the frequency of the Schumann Resonance, 7.8 cycles per second, the same resonance as a human heartbeat. The center of the heart chakra (Maui). The energy up radiates what we are made of- pure, unconditional love.

The **heart chakra** is a fundamental part of understanding the spiritual energy of the earth and its connection to humanity. It is believed to be the gateway between the physical and the divine, and is essential to the spiritual growth of many cultures.

When The Feminine Divine Manifested

Toward the end of this period, the buildings which served for the cultivation of “divine wisdom and divine art” became more and more imposing and ornate. These institutions differed in every respect from what temples were later, for they were educational and scientific institutions at the same time. Of special importance is something which occurred in the course of Lemurian development by virtue of the fact that the women lived in the manner described above. They thereby developed special human powers.

Their faculty of imagination which was in alliance with nature, became the basis for a higher development of the life of ideas. They took the forces of nature into themselves, where they had an after-effect in the soul. Thus the germs of memory were formed. With memory was also born the capacity to form the first and simplest moral concepts. The development which woman went through during the Lemurian period had the result that at the appearance of the next, the Atlantean, root race on earth, an important role devolved upon her. This appearance took place under the influence of highly developed entities, who were familiar with the laws of the formation of races and capable of guiding the existing forces of human nature into such paths that a new race could come into being.

The preeminence of the feminine soul, which has been described, was especially strong in the last Lemurian period and continued into the Atlantean times, during which the fourth subrace was preparing itself. But one must not imagine that this was the case among all of mankind. It was true, however, for that part of the population of earth from which the truly advanced races later emerged. This influence exercised the strongest effect upon all that which in man is “unconscious.” The development of certain constant gestures, the refinements of sensory perception, the feeling for beauty, a good part of the general life of sensations and feelings which is common to all men – all this originally emanated from the spiritual influence of woman. It is not an over-statement if one interprets the reports in such a way as to affirm, “The civilized nations have a bodily form and expression, as well as certain bases of physical-soul life, which were imprinted upon them by woman.”

Men were able, it is true, to form conceptions of things and events; but these conceptions did not remain in the memory, and in consequence men did not possess language in its true sense.

What they could produce in this connection were rather natural sounds which expressed their sensations of pleasure, joy, pain, and so on, but which did not designate external things. Their mental conceptions, however, had quite a different power from those of later men. They influenced their surroundings by means of this power. Other men, animals, plants, and even inanimate objects could feel this action and were worked upon by mere mind-images”.

The third continent Madame Blavatsky called ‘Lemuria.’ Lemuria was a land mass that extended from the Indian Ocean to Australia. Scott-Elliot notes that, though closer to humans than the Hyperboreans, the Lemurian race should best be ‘regarded rather as an animal destined to reach humanity than as a human according to our understanding of the term’. Thus the Lemurian could communicate with his fellow-men without the need of speech. This intercourse consisted in a kind of “thought-reading.” The power of his conceptions was derived by the Lemurian immediately from the things that surrounded him. It flowed on him from the power of growth in plants, from the vital energy in animals. Thus did he understand plants and animals in their inner working and life. Indeed, he thus understood even the physical and chemical forces of inanimate things. In building anything, he did not need first to calculate the bearing-capacity of a trunk or the weight of a block of stone: he could see how much the trunk could bear, how the block would settle through its weight.

The Lemurian built in this way without any art of engineering, but with the certainty of a kind of instinct working out as imagination. And withal he had his body under great control. If necessary he could steel his arm through a mere effort of will. Consequently he could, for instance, raise enormous burdens. Just as the Atlantean disposed of the vital energy, so the Lemurian was master of his will. He was, let not the expression be misunderstood, a born magician in all spheres of the lower human activities.

Atlantis is the Americas & this includes Hawaii which was once a Naga Maya throne of the Atlantic kingdoms, it was always a part of Atlantis (AZTLAN). The SERPENT culture in Hawaii is still alive & well among the indigenous people, however, there's also a lot of culture vulture hijacking by cleptopathic parasites who can't seem to help themselves...

As far as "DRAGON BALL-Z" goes, the name KAMEHAMEHA is indigenous to Aztlan/Atlantis & it was also a royal bloodline of DRAGON/SERPENT kings in Hawaii... However, the Japanese creators of this cartoon used the name as a spell to summon fire from the palms of their fictional dragon warriors.

Something I started working on at the beginning of the year. Got lots of crazy genetic and historical anomalies to unveil here. Dark history. Ancient history. Lies upon lies. Hidden and forgotten. The stories of my Great Grandparents. THE DESCENDANTS OF CAIN. THE ROYAL DRAGONS. HAWAII IS THE MISSING LINK OF EVERY LIE OF ANCIENT HISTORY. HAWAII IS TARTARIA, ATLANTIS, LEMURIA, MU & HAWAIIKI. HAWAII IS THE GARDEN. THE CAPITAL OF EARTH. THE PLACE WHERE SOULS ENTIRE AND EXIT. JUST ASK THE DALAI LAMA. LAHAINA WAS THE HOME OF ANCIENT DRAGON QUEENS. THE OLDEST LANGUAGE, CULTURE, RELIGION AND BLOODLINE, THE LIVING GENETIC LIBRARY OF EARTH AND HUMANITY, WHICH INCLUDES ALL THE HOMINID SPECIES, HYBRIDS AND "ALIENS". HAWAIIANS ARE THE HEARTBEAT OF HUMANITY. KEEP TORTURING US AND DESTROYING OUR LAND, AND EARTH WILL DIE.

For those of you that believe in the old testament, let me break it down for you, what is happening in Hawaii. IF you don't believe any of this stuff, it doesn't matter, because rich crazy apex draconian predators with all the money and weapons believe it.

For hundreds of years the elite have lied about Hawaii. Captain Cook did not discover Hawaii. Jaun Geatano did. Spanish royals came and mated with the royals of Maui. Before they showed up, we are the oldest living language and bloodline in the world, the Kings of Kane: or otherwise known as CAIN. We are the royal Dragons. Cain was not a murderer. He was king of the EARTH. It's pronounced Kaaah-nei.

The evil reptilians that everyone talks about in conspiracy theory, and "evil serpents" and "fallen angels" are the descendants of Tubal Cain and Gog. They are genetic haplogroup G, from Georgia, the ANCIENT country. These are the people that invented money and metal weapons. They ALSO call themselves the Vulcans, a war tribe. The people FROM the Caucasus Mountains. Tribes of people from the Caucasus mountains do in fact believe they are the descendants of Tubal Cain and Gog.

Then fast forward in mythos and actual races of people. Some of the descendants that literally descended from the Caucasus were peaceful, like the Tiboreni, but most of the descendants of

the Vulcans were bloodthirsty war tribes....that all drank blood and were cannibals. (They also migrated to BASQUE LAND). You have the Edomites, Amelekites, Hyksos, Hittites, Canaanites, Babylonians, Phoenicians, Scythians and they all want us dead. Don't believe me? Go ask a white supremacist mormon Bishop when they finally let descendants of cain hold the priesthood! This is ancient Cain vs Seth wars. According to them black hawaiiians and black hebrews and black asians like ghenghis khan - HAPLOGROUP C, are all the serpent seed of Cain (according to them). And we don't deserve to live, according to the Mormon Church. Don't be fooled. The royal bloodline of Euroope isn't "white".

They aren't catholic, they aren't jewish, they are whatever religion will bring them the most money and followers. They are all races because they rode around on horses terrorizing most of Eurasia for thousands of years and bred with everyone and stole their cultures. Lots of European royals are straight up mulatto and lots of BLACK royals. And THEN they lie about African royals. Half the Pharoahs were white and lots of them were named Moses.

They are called Draconians. The bloodline of Tubal Cain is 35,000 years old (rh negatives). The bloodlines of Cain in HAWAII is WAAAAAAAAAY OLDER. So old, they refuse to show Hawaiian DNA in any consumer tests and make peer reviewed studies locked away behind paywalls, with really small genetic testing pools that in no way represent the actual DNA of Hawaii. Hawaiians would NEVER let anyone test their body pieces or fluids. SO OLD, they say polynesians, papuan, melanesian and australasian have all kinds of alien genes that they cannot identify or...refuse to tell us.

Burning down Lahaina is a symbolic act of war, of cutting off the head of the seat of power of the KINGS of KANE and our ROYAL DRAGON QUEENS. Which have been demonized by every male institution to ever exist. The Virgin birth is real and it has nothing to do with Yahweh or Jehova. Some women don't need men to procreate. It's a scientific fact. It happens all the time with FEMALE REPTILES. It's called parthenogenesis. All the Asian goddesses are Dragons. The the European royal Goddesses are Dragons. Everyone knows humans are hybrid species... except Americans.

THE GARDEN OF EDEN IS LAHAINA THE HOME OF KIHAWAHINE.

This is an ancient war going back to Atlantis. (Or Hawaiki, Tartaria, Lemuria and Mu. All the same. There were many floods and resets not just one). If anyone bothered to learn our language, mythology, history and culture, you would know this already.

Chapter 7
Lasers to Heal

CLINICAL EFFECTS OF LASER THERAPY

There are many different types of cold laser devices. Many used by clinicians are often the size of a flashlight, and may be connected to a larger unit (computer), or may be a handheld device. The laser may be placed directly over the injured area for 30 seconds to several minutes depending on the size of the area being treated and the dose provided by the cold laser unit. Some may move the laser around, move the joint or muscle during treatment, and some may remain in contact without movement of either unit or patient.

During treatment the non-thermal photons of light that are emitted from the laser and pass through the skin layers (the dermis,

epidermis, and the subcutaneous tissue or tissue fat under the skin). This light has the ability to penetrate 2 to 5 centimeters below the skin. Once the light energy passes through the layers of skin and reaches the target area, it is absorbed and interacts with the light sensitive elements in the cell, such as the mitochondria. This process can be compared to photosynthesis in plants - sunlight is absorbed by plants, which is then converted to usable energy so that the plant can grow. The mitochondria absorbs the light, which is used to make energy in the form of ATP. When cells absorb this light energy, it also initiates a series of events that is theorized to eventually result in healing damaged or injured tissue. Some of these events include increasing the movement of immune cells from the blood vessels, into the area of tissue injury. Increase lymphatic flow and drainage, as well as increased blood flow and drainage can occur. In short, laser therapy can assist in reduction of pain, inflammation, edema and an overall reduction in healing time by increasing intracellular metabolism.

Cold laser therapy can stimulate all cell types including muscle, ligament, cartilage, and nerves, so a number of conditions can be treated by cold laser therapy. Some conditions improved or treatment aided by cold laser therapy include:

- Arthritis pain
- Back pain
- Carpal tunnel syndrome
- Fibromyalgia pain
- Knee pain
- Neck pain
- Sprains
- Tendonitis like Golfer's Elbow or Tennis Elbow
- Plantar fasciitis
- Neuropathy
- Disc herniation and disc bulge

Remove fat, reduce inches

ZERO Surgery ZERO Pain ZERO Downtime

The first non-invasive body contouring procedure to effectively remove excess fat.

No matter how hard you exercise, are there still a few problem areas on your body that you just can't shape up? The FDA just gave a low-level laser technology known as ZERONA the green-light. This device offers the first non-invasive body contouring. The liquefied fat moves from inside the cell through a temporary pore formed in the cell membrane to outside the cell where it is in the interstitial space until absorbed by the lymphatic system. The procedure is for circumferential reduction of the waist, hips and thighs.

Dr. Leibman's office has had an average weight loss of 5.5 inches in just 2 weeks

LASIK EYE SURGERY

LASIK Eye Surgery

LASIK is a type of refractive surgery. This kind of surgery uses a laser to treat vision problems caused by refractive errors. You have a refractive error when your eye does not refract (bend) light properly. For you to see clearly, light rays must travel through your cornea and lens. The cornea and lens refract the light so it lands on the retina. The retina turns light into signals that travel to your brain and become images. With refractive errors, the shape of your cornea or lens keeps light from bending properly.

When light is not focused on the retina as it should be, your vision is blurry. With LASIK, your ophthalmologist uses a laser to change the shape of your cornea. This laser eye surgery improves the way light rays are focused on the retina. LASIK is used to treat myopia (nearsightedness), hyperopia (farsightedness) and astigmatism. The goal of LASIK is to correct your refractive error to improve your vision. LASIK eye surgery may reduce your need for eyeglasses or contact lenses. In some cases, it may even allow you to do without them completely.

In Conclusion

Facing such an invisible formidable opponent that controls our land, seas, foods, government, financial system and food supplies requires one to relearn to be self-sufficient and self-reliant. Sadly, most are unwilling to learn to grow their own food again and organize in their communities.

What we lack is that we don't say what it is WE WANT vs. always saying what we don't want and then creating and building a world, locally, that reflects how we take back our lives from our Controllers. We must stop funding and participating, like voting for someone they only know from a black screen, and create our own value systems. We also must protect and preserve Nature, who is under attack as well. All of us are guilty of taking more from Nature than we give back. The ocean's plastic pollution being used by humanity as a trash bin is just one instance of us all's "throw it away" generation. Another example of all us participating in the degradation of Nature is car tires. Were you aware that according to a report by the Tire Industry Project for the World Business Council for Sustainable Development, **1 billion end-of-life tires are generated every year** and there are currently **33 billion** such tires in landfills and stockpiles worldwide! We are all guilty. Yet, as long as it is out of sight, out of mind, most are clueless to the long term effects on our One Mother who bears life to all!

That we are eternal beings, it is imperative that we shine our light into the darkness of such evil doers as well as develop a benevolent lifestyle to our One Mother so future generations can not only live, but thrive on Nature's many, many gifts. As I wrote about in my One America/One Word book, the original natives had one general rule, "Never take from Nature more than you give back". This is how for generations there was lands of abundance allowing all our buns to dance in synchronicity with our Mother ship we all reside on and count for our livelihood and subsistence.

For now we must preserve, protect and record the evil egregious actions ever increasing on all worldwide with advanced, sophisticated weaponry. We do not know when or where the next attacks will occur so it is imperative to have a "hunker down" plan as well as "bug out" plan, in case you are attacked. We now know that we cannot rely on first responders or police or FEMA or our government to protect us as many are on the other team as shown by the Freemason symbols on many police badges.

As you can read in Appendix 1, nearly all politicians and people in power are members of secret societies, so counting on them to save us is a fool's errand and complete waste of your time. In Mendocino County, California we passed a Measure S law that legally declared all power and rights are generated at the community level,

above state and national laws. We also wrote into law the “Rights of Nature” so that she can be protected in the legal system and not just allowing forests and waterways to be abused as profit centers for uncaring whorporations.

Finally, if we have limited controls to ourselves, family and communities well being we must bear witness and record and retell the events going on today. Books will no longer be viable so oral traditions and record keeping is essential. In Rawanda, Uganda back in Africa in 1994, our Controllers used geoengineered aerosol spraying to incite riots between tribes as the CIA covered the operation. This may be a prelude to the “conquer by dividing” strategy being used to day with the Covidiocracy rolled out in 2020 to further divide and conquer the world for their own desires and needs.

In closing, please understand that we all are Spiritual beings having physical experiences. Our souls *chose* to incarnate in these most difficult times to fight this great invisible beast we all face. By shining our light into the darkness, it is no longer darkness, for we can see because of our willingness to face some very difficult and ugly truths as laid out in this book.

The good news is that once you shine light into the darkness, it becomes your shadow, you own it, yet in these times, when the dawn of light is only beginning after hundreds of years of dark ages, we will not get the warmth of the Sun, or have our crops multiply, but we are setting the foundation for all to know and understand and eventually conquer the Beast.

Tag you're it!

THEY CAN PUT THE TRUTH IN PLAIN SIGHT
BECAUSE THEY KNOW PEOPLE WILL STILL DISMISS IT
AND BELIEVE THAT THIS DOES NOT HAPPEN TODAY

Appendix I

Secret Societies and Famous Members

SECRET SOCIETIES WHO RUN the WORLD

It is simply incredible how the so few, and very, very powerful, have kept secret their affiliations to so many secret societies from public knowledge and discourse for not only decades, but centuries. This is only a partial list of the true powers behind the power we see on social media today. And all of these secret societies answer in one way or another to the blacked robed Jesuits and their Knights of Malta military henchmen.

Mike Pompeo, Director of CIA - Pompeo; his wife, Susan; and their son, Nicholas, reportedly attend Eastminster Presbyterian Church, where he serves as a deacon and has taught the fifth-grade Sunday school class.

In an interview for a French news documentary, “Goldman Sachs: The Bank That Runs The World,” Bannon compared joining the Wall Street bank to joining the Roman Catholic religious order of the Jesuits:

INTERVIEWER: What did Goldman Sachs represent for you?

STEVE BANNON: Goldman Sachs represented excellence and meritocracy. It didn't matter where you came from, it didn't matter what school you went to, what your religion was or what was your ethnicity. James (Jamie) Lee, resides in the county of Mendocino in Northern California growing biodynamic and organic food at his 100-yr. old farm that he stewards for future generations.

He graduated from the school of business at San Diego State University as well as attended the Green MBA program at New College in Santa Rosa, California.

He has had over 25 years' experience working on Wall Street beginning working for the investment banking firms, Furman, Selz, Inc. in New York City as an Institutional Sales Trader. He then moved back to San Francisco, California to work for Robertson, Colman, Stephens Investment Bank as a VP of Institutional Sales. In 1991, he founded a small investment/research boutique, JWJ Investments, before walking away from Wall Street in 2007 to become a Truth Activist to try and help wake the world up to what he learned was going to be no less than the enslavement of all humanity through vaccine inoculations.

He spends most of his days now analyzing, investigating and exploring the hidden occult world behind the power bases we see in our government institutions today that few are even aware of, but should be made known to all.

His work has been published on many alternative news websites including Waking Times, Activist Post, Philosophers-Stone, Reddit, Beforeitsnews.com, David Icke, StoptheCrime.net, ElanaFreeland.com, Rense.com, Natural News, Alex Jones, Sage of Quay and 2015 Most Censored Stories as well as appeared on the internationally syndicated evening news show, Breaking the Set with Abby Martin in November of 2014. He was on the show because he helped spearhead historical legislation that he helped get passed in Mendocino County, California in November of 2014. The first ever laws passed in the country declared local rights of self-governance and community determination preempting state, federal and international law.
